Erratum

A better measure of relative prediction accuracy for model selection and model estimation

Chris Tofallis*

University of Hertfordshire, Hatfield, UK

Correction to: *Journal of the Operational Research Society* (2014) advance online publication 12 November. doi:10.1057/jors.2014.103

In the originally published version of this article, the equation in the Proof of Section '3.2. Unbiasedness of predictions' was given incorrectly as the result of a production error.

The correct version of this equation is as follows:

$$2\sum \frac{\ln af(x_i; b) - \ln y_i}{af(x_i; b)} \cdot \frac{\partial af(x_i; b)}{\partial a} = 0$$
