Modification of N staging systems for penile cancer: a more precise prediction of prognosis

Z-S Li, K Yao, P Chen, B Wang, J-P Chen, Q-W Mi, Y-H Li, Z-W Liu, Z-K Qin, F-J Zhou and H Han

Correction to: *British Journal of Cancer* (2015) **112**, 1766–1771; doi:10.1038/bjc.2015.141; published online 5 May 2015

The sixth line, which reads ‘N2 metastasis in multiple or bilateral inguinal lymph nodes & Unilateral or bilateral metastasis in four or more inguinal lymph nodes without ENE, ENE of LNM or pelvic lymph nodes’, should be deleted. The correct table is reproduced below.

Following the publication of this manuscript, the authors have noticed an error in Table 1.

Stage	AJCC 7th edition N staging system	Modified N staging system
N0	No regional lymph node metastasis	No regional lymph node metastasis
Nx	Regional lymph nodes cannot be assessed	Regional lymph nodes cannot be assessed
N1	Metastasis in a single inguinal lymph node	Metastasis in one to two unilateral inguinal lymph nodes without ENE
N2	Metastasis in multiple or bilateral inguinal lymph nodes	Metastasis in three unilateral or metastasis in two to three bilateral inguinal lymph nodes without ENE
N3	Unilateral or bilateral ENE of LNM or pelvic lymph node(s)	Unilateral or bilateral metastasis in four or more inguinal lymph nodes without ENE, ENE of LNM or pelvic lymph node(s)

Abbreviations: ENE = extranodal extension; LNM = lymph node metastasis.
