

Topic	Item	Checklist item description	Reported on Line
<b>Title</b>	1	The diagnosis or intervention of primary focus followed by the words "case report" . . . . .	1
<b>Key Words</b>	2	2 to 5 key words that identify diagnoses or interventions in this case report, including "case report" <sup>41</sup> . . . . .	(case report, EVHC, radiation therapy)
<b>Abstract (no references)</b>	3a	Introduction: What is unique about this case and what does it add to the scientific literature? . . . . .	43 (no abstract required)
	3b	Main symptoms and/or important clinical findings . . . . .	49-65 (no abstract required)
	3c	The main diagnoses, therapeutic interventions, and outcomes . . . . .	49-74 (no abstract required)
	3d	Conclusion—What is the main "take-away" lesson(s) from this case? . . . . .	137-145 (no abstract required)
<b>Introduction</b>	4	One or two paragraphs summarizing why this case is unique ( <b>may include references</b> ) . . . . .	40-46
<b>Patient Information</b>	5a	De-identified patient specific information. . . . .	49-65
	5b	Primary concerns and symptoms of the patient. . . . .	49-52
	5c	Medical, family, and psycho-social history including relevant genetic information . . . . .	53-55, 95-97
	5d	Relevant past interventions with outcomes . . . . . no interventions as patient did not follow up (64-65)	
<b>Clinical Findings</b>	6	Describe significant physical examination (PE) and important clinical findings. . . . .	49-52, 57-59
<b>Timeline</b>	7	Historical and current information from this episode of care organized as a timeline . . . . .	49-65
<b>Diagnostic Assessment</b>	8a	Diagnostic testing (such as PE, laboratory testing, imaging, surveys). . . . .	61-63
	8b	Diagnostic challenges (such as access to testing, financial, or cultural) . . . . .	Not relevant in this case
	8c	Diagnosis (including other diagnoses considered) . . . . .	59-63
	8d	Prognosis (such as staging in oncology) where applicable . . . . .	70-71 ("While EVHC are benign...")
<b>Therapeutic Intervention</b>	9a	Types of therapeutic intervention (such as pharmacologic, surgical, preventive, self-care) . . . . . no interventions as patient did not follow up (64-65)	
	9b	Administration of therapeutic intervention (such as dosage, strength, duration) . . . . . no interventions as patient did not follow up (64-65)	
	9c	Changes in therapeutic intervention (with rationale) . . . . . no interventions as patient did not follow up (64-65)	
<b>Follow-up and Outcomes</b>	10a	Clinician and patient-assessed outcomes (if available) . . . . . no interventions as patient did not follow up (64-65)	
	10b	Important follow-up diagnostic and other test results . . . . . No follow up, but diagnosis is benign (64-65)	
	10c	Intervention adherence and tolerability (How was this assessed?) . . . . . No interventions assessed as patient did not follow up (64-65)	
	10d	Adverse and unanticipated events . . . . . Unable to assess as patient did not follow up (64-65)	
<b>Discussion</b>	11a	A scientific discussion of the strengths AND limitations associated with this case report . . . . . strengths discussed throughout, limitation is that patient did not follow up so outcomes and interventions could not be assessed as stated in lines 64-65	
	11b	Discussion of the relevant medical literature <b>with references</b> . . . . .	Yes, throughout the entire report
	11c	The scientific rationale for any conclusions (including assessment of possible causes) . . . . .	77-97
	11d	The primary "take-away" lessons of this case report (without references) in a one paragraph conclusion . . . . .	137-145
<b>Patient Perspective</b>	12	The patient should share their perspective in one to two paragraphs on the treatment(s) they received . . . . .	no treatment received
<b>Informed Consent</b>	13	Did the patient give informed consent? Please provide if requested . . . . .	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>
