

TISSUE ENGINEERING **MONDAY** LUNCH SEMINAR SERIES

February 1, 2010

Regeneration: Stem Cell Transplantation vs. Cell Homing

Jeremy Mao, DDS, PhD

Professor, College of Dental Medicine, CUMC

March 1, 2010

Engineering Anatomically Shaped Functional Human Bone

Gordana Vunjak-Novakovic, PhD

Professor, Biomedical Engineering, FF SEAS, Columbia

April 5, 2010

Cartilage Mechanics and Tribology

Gerard Ateshian, PhD

Professor, Mechanical Engineering and Biomedical Engineering, FF SEAS, Columbia

May 3, 2010

A Paradigm for Functional Tissue Engineering of Articular Cartilage

Clark Hung, PhD

Professor, Biomedical Engineering, FF SEAS, Columbia

June 7, 2010

Interface Tissue Engineering for Integrative Soft Tissue Repair

Helen Lu, PhD

Associate Professor, Biomedical Engineering and College of Dental Medicine, FF SEAS and CUMC

All seminars will be held:

12:00 - 1:00p

Irving Institute Conference Room (PH-10-204)

622 West 168 Street, Floor 10, Room 204, NYC 10032

RSVP to Michelle McClave

mm3098@columbia.edu or (212) 305-9425

Translating research across basic, clinical, and population science
