

A SELECTIVE BIBLIOGRAPHY OF EAST-WEST COMMERCIAL RELATIONS

*Compiled by Mrs. Linda Ervin under the direction of Professor Carl H. Mc-Millan, Institute of Soviet and East European Studies, Carleton University, Ottawa.**

The Bibliography is a selective listing of published materials on East-West commercial relations which have appeared in English or French over the past ten years (January 1, 1963 through mid-1973). This is a period in which not only the volume, but also the variety, of East-West business relations have grown rapidly, and these developments are reflected in the increase and diversity of the published works on the subject.

Studies prepared by governmental agencies (national and international) as well as by private individuals and groups have been included. Coverage of recent works is more exhaustive. For a more complete listing of earlier works in the field, the reader is referred to several earlier bibliographies:

Billings, Eldon F., *East-West Trade; A Selective Bibliography*, in U.S. LIBRARY OF CONGRESS, LEGISLATIVE REFERENCE SERVICE, BACKGROUND STUDY ON EAST-WEST TRADE. Washington: USGPO, 1965, 131-141.

ORGANIZATION FOR ECONOMIC COOPERATION AND DEVELOPMENT, LIBRARY, LES RELATIONS COMMERCIALES EST-OUEST (EAST-WEST TRADE RELATIONS). Paris: OECD, 1966. 95 pp. (Its Bibliographie spéciale analytique, No. 7.)

UNITED NATIONS LIBRARY, GENEVA, EAST-WEST TRADE; A SELECTIVE BIBLIOGRAPHY. Geneva: United Nations Library, 1966. 80 pp. (Reference lists No. 1.)

News articles and materials of a more topical nature, which have not been included here, may be found listed in the *Public Affairs Information Services Bulletin* (New York: PAIS, 1915- weekly).

There are a number of specialized periodicals and newsletters devoted to items of a more current interest in East-West commercial relations. We have not attempted to index them systematically in this Bibliography. Instead, some of the more important of these sources are listed below for the guidance of those interested:

AMERICAN REVIEW OF EAST-WEST TRADE. Monthly. White Plains, N.Y. Symposium Press.

BUSINESS INTERNATIONAL, EAST EUROPEAN REPORT. Geneva.

LE COURRIER DES PAYS DE L'Est. Mensuel. Paris, Secrétariat Général du Gouvernement, Direction de la Documentation, Centre Français du Commerce Extérieur.

Only studies whose principal focus is on East-West commercial relations have been included in this Bibliography. "East" is defined to cover the socialist countries, for the most part in Eastern Europe and Asia; "West" to include the industrialized capitalist countries, largely in Western Europe and North America. Studies which deal primarily with the details of bilateral commercial relations between individual countries of the two groups have not been included, unless it was judged particularly useful to do so.

The Bibliography has been divided into two major parts. The first part lists books, monographs, special journal issues, and other large works on the subject. The second part lists articles and other shorter studies, dividing them according to their predominant content. An article dealing primarily with the participation of a major Western country or group of countries in East-West trade has been placed under the appropriate country heading. The few studies treating the participation of a particular Eastern country in East-West trade have been placed under the heading, East-West Commerce: General. An article concerned primarily with one of the functional aspects of East-West trade has been placed under the appropriate functional heading. In each section, materials are listed alphabetically by author, or in the absence of an individual author, by title.
