Chapter 1 Organizations, Work, and Applied Psychology 1

- At a Glance 1
- The Pervasiveness of Organizations 1
 - Differences in Jobs 2
 - Differences in Performance 2
 - A Utopian Ideal 3
 - Point of View 3
- Personnel Psychology in Perspective 3
 - The Changing Nature of Product and Service Markets 5
 - Effects of Technology on Organizations and People 6
 - Changes in the Structure and Design of Organizations 6
 - The Changing Role of the Manager 7
 - The Empowered Worker—No Passing Fad 8
 - Implications for Organizations and Their People 9
- Plan of the Book 10
 - Evidence-Based Implications for Practice 12
 - Discussion Questions* 12

Chapter 2 The Law and Human Resource Management 13

- At a Glance 13
- The Legal System 14
- Unfair Discrimination: What Is It? 16
- Legal Framework for Civil Rights Requirements 17
- The U.S. Constitution—Thirteenth and Fourteenth Amendments 18
- The Civil Rights Acts of 1866 and 1871 18

Chapter 3 People, Decisions, and the Systems Approach 39

- At a Glance 39
- Utility Theory—A Way of Thinking 39
 - Organizations as Systems 41
- A Systems View of the Employment Process 43
 - Job Analysis and Job Evaluation 43
 - Workforce Planning 45
 - Recruitment 45
 - Initial Screening 46
 - Selection 46
 - Training and Development 47
 - Performance Management 48
 - Organizational Exit 48
 - Evidence-Based Implications for Practice 49
- Discussion Questions 50*

Chapter 4 Criteria: Concepts, Measurement, and Evaluation 51

- At a Glance 51
- Definition 52
- Job Performance as a Criterion 54
- Dimensionality of Criteria 54
 - Static Dimensionality 54
 - Dynamic or Temporal Dimensionality 56
 - Individual Dimensionality 58
- Challenges in Criterion Development 59
 - Challenge #1: Job Performance (Un)Reliability 59
 - Challenge #2: Job Performance Observation 60
 - Challenge #3: Dimensionality of Job Performance 61
- Performance and Situational Characteristics 61
 - Environmental and Organizational Characteristics 62
 - Environmental Safety 62
 - Lifespace Variables 62
 - Job and Location 62
 - Extraintividual Differences and Sales Performance 63
 - Leadership 63
- Steps in Criterion Development 63
- Evaluating Criteria 63
 - Relevance 64
 - Sensitivity or Discriminability 64
 - Practicality 64
- Criterion Deficiency 65
- Criterion Contamination 65
 - Bias Due to Knowledge of Predictor Information 66

Bias Due to Group Membership	66
Bias in Ratings	66
Criterion Equivalence	67
Composite Criterion Versus Multiple Criteria	67
Composite Criterion	67
Multiple Criteria	68
Differing Assumptions	68
Resolving the Dilemma	69
Research Design and Criterion Theory	69
■ Evidence-Based Implications for Practice	71

Chapter 5 Performance Management 73

At a Glance	73
Purposes Served	74
Realities of Performance Management Systems	75
Barriers to Implementing Effective Performance Management Systems	75
Organizational Barriers	75
Political Barriers	76
Interpersonal Barriers	76
Fundamental Requirements of Successful Performance Management Systems	76
Behavioral Basis for Performance Appraisal	77
Who Shall Rate?	79
Immediate Supervisor	79
Peers	79
Subordinates	80
Self	81
Clients Served	82
Appraising Performance: Individual Versus Group Tasks	82
Agreement and Equivalence of Ratings Across Sources	83
Judgmental Biases in Rating	85
Leniency and Severity	85
Central Tendency	86
Halo	86
Types of Performance Measures	87
Objective Measures	87
Subjective Measures	87
Rating Systems: Relative and Absolute	88
Relative Rating Systems (Employee Comparisons)	88
Absolute Rating Systems	89
Summary Comments on Rating Formats and Rating Process	95

Factors Affecting Subjective Appraisals	96
Evaluating the Performance of Teams	99
Rater Training	101
The Social and Interpersonal Context of Performance Management Systems	102
Performance Feedback: Appraisal and Goal-Setting Interviews	104
Communicate Frequently	105
Get Training in Appraisal	105
Judge Your Own Performance First	105
Encourage Subordinate Preparation	106
Use “Priming” Information	106
Warm Up and Encourage Participation	106
Judge Performance, Not Personality or Self-Concept	106
Be Specific	106
Be an Active Listener	107
Avoid Destructive Criticism and Threats to the Employee’s Ego	107
Set Mutually Agreeable and Formal Goals	107
Continue to Communicate and Assess Progress Toward Goals Regularly	108
Make Organizational Rewards Contingent on Performance	108
■ Evidence-Based Implications for Practice	108
<i>Discussion Questions</i>	109

Chapter 6 Measuring and Interpreting Individual Differences 110

At a Glance	110
What Is Measurement?	111
Scales of Measurement	111
Nominal Scales	112
Ordinal Scales	112
Interval Scales	113
Ratio Scales	114
Scales Used in Psychological Measurement	114
Consideration of Social Utility in the Evaluation of Psychological Measurement	115
Selecting and Creating the Right Measure	115
Steps for Selecting and Creating Tests	116
Selecting an Appropriate Test: Test-Classification Methods	118
Further Considerations in Selecting a Test	120
Reliability as Consistency	121
Estimation of Reliability	121
Test-Retest	122
Parallel (or Alternate) Forms	123

Internal Consistency	124
Stability and Equivalence	127
Interrater Reliability	128
Summary	129
Interpretation of Reliability	130
Range of Individual Differences	130
Difficulty of the Measurement Procedure	131
Size and Representativeness of Sample	131
Standard Error of Measurement	131
Scale Coarseness	132
Generalizability Theory	134
Interpreting the Results of Measurement Procedures	135
■ Evidence-Based Implications for Practice	138
<i>Discussion Questions</i>	138

Chapter 7 Validation and Use of Individual-Differences Measures 139

At a Glance	139
Relationship between Reliability and Validity	139
Evidence of Validity	141
Content-Related Evidence	142
Criterion-Related Evidence	145
Predictive Studies	146
Concurrent Studies	148
Requirements of Criterion Measures in Predictive and Concurrent Studies	149
Factors Affecting the Size of Obtained Validity Coefficients	149
Range Enhancement	149
Range Restriction	150
Position in the Employment Process	153
Form of the Predictor-Criterion Relationship	153
Construct-Related Evidence	153
Illustration	156
Cross-Validation	157
Gathering Validity Evidence When Local Validation Is Not Feasible	158
Synthetic Validity	159
Test Transportability	159
Validity Generalization	160
Empirical Bayes Analysis	165
Application of Alternative Validation Strategies:	
Illustration	165
■ Evidence-Based Implications for Practice	166
<i>Discussion Questions</i>	166

Chapter 8 Fairness in Employment Decisions 167

- At a Glance 167
- Assessing Differential Validity 168
 - Differential Validity and Adverse Impact 169
 - Differential Validity: The Evidence 173
- Assessing Differential Prediction and Moderator Variables 174
 - Differential Prediction: The Evidence 176
 - Problems in Testing for Differential Prediction 177
 - Suggestions for Improving the Accuracy of Slope-based Differential Prediction Assessment 179
- Further Considerations Regarding Adverse Impact, Differential Validity, and Differential Prediction 180
 - Minimizing Adverse Impact Through Test-Score Banding 184
- Fairness and the Interpersonal Context of Employment Testing 189
- Fair Employment and Public Policy 190
 - Evidence-Based Implications for Practice 191
 - Discussion Questions* 192

Chapter 9 Analyzing Jobs and Work 193

- At a Glance 193
- Terminology 195
 - Aligning Method with Purpose 196
 - Choices 196
- Defining the Job 197
- Job Specifications 197
 - Establishing Minimum Qualifications 199
- Reliability and Validity of Job-Analysis Information 200
- Obtaining Job Information 201
 - Direct Observation and Job Performance 202
 - Interview 205
 - SME Panels 205
 - Questionnaires 206
 - The Position Analysis Questionnaire 206
 - Fleishman Job Analysis Survey (F-JAS) 208
 - Critical Incidents 209
- Other Sources of Job Information and Job-Analysis Methods 210
 - The Job Analysis Wizard 211
 - Incorporating Personality Dimensions into Job Analysis 211
 - Strategic or Future-Oriented Job Analyses 212
 - Competency Models 213

Interrelationships among Jobs, Occupational Groups, and Business Segments	213
Occupational Information—From the Dictionary of Occupational Titles to the O*Net	214
■ Evidence-Based Implications for Practice	216
<i>Discussion Questions</i>	216

Chapter 10 Strategic Workforce Planning 217

At a Glance	217
What Is Workforce Planning?	218
Strategic Business and Workforce Plans	219
An Alternative Approach	220
Payoffs from Strategic Planning	221
Relationship of HR Strategy to Business Strategy	222
Talent Inventory	224
Information Type	224
Uses	225
Forecasting Workforce Supply and Demand	225
External Workforce Supply	225
Internal Workforce Supply	226
Leadership-Succession Planning	226
Chief Executive Officer (CEO) Succession	228
Workforce Demand	229
Pivotal Jobs	229
Assessing Future Workforce Demand	230
How Accurate Must Demand Forecasts Be?	230
Integrating Supply and Demand Forecasts	230
Matching Forecast Results to Action Plans	230
Control and Evaluation	232
Monitoring Performance	232
Identifying an Appropriate Strategy for Evaluation	233
Responsibility for Workforce Planning	233
■ Evidence-Based Implications for Practice	234
<i>Discussion Questions</i>	234

Chapter 11 Recruitment 235

At a Glance	235
Recruitment Planning	237
Staffing Requirements and Cost Analyses	239
Source Analysis	241
Operations	242
External Sources for Recruiting Applicants	242
Managing Recruiting Operations	245

Measurement, Evaluation, and Control	247
Job Search from the Applicant's Perspective	248
Realistic Job Previews	249
■ Evidence-Based Implications for Practice	252
<i>Discussion Questions</i>	252

Chapter 12 Selection Methods: Part I 253

At a Glance	253
Recommendations and Reference Checks	253
Personal History Data	255
Weighted Application Blanks (WABs)	256
Biographical Information Blanks (BIBs)	256
Response Distortion in Application Forms and Biographical Data	257
Validity of Application Forms and Biographical Data	259
Bias and Adverse Impact	260
What Do Biodata Mean?	260
Honesty Tests	261
Evaluation of Training and Experience	263
Computer-Based Screening	264
Drug Screening	265
Polygraph Tests	267
Employment Interviews	268
Response Distortion in the Interview	268
Reliability and Validity	269
Factors Affecting the Decision-Making Process	270
Social/Interpersonal Factors	270
Cognitive Factors	271
Individual Differences	273
Effects of Structure	275
Use of Alternative Media	278
Needed Improvements	278
Toward the Future: Virtual-Reality Screening (VRT)	280
■ Evidence-Based Implications for Practice	280
<i>Discussion Questions</i>	281

Chapter 13 Selection Methods: Part II 282

At a Glance	282
Criteria of Managerial Success	283
The Importance of Context	284
Instruments of Prediction	285
Cognitive Ability Tests	285
Objective Personality Inventories	287

Leadership-Ability Tests	291
Projective Techniques	293
Motivation to Manage	293
Personal-History Data	297
Peer Assessment	297
Work Samples of Managerial Performance	298
Leaderless Group Discussion (LGD)	300
The In-Basket Test	300
The Business Game	302
Situational Judgment Tests (SJT)	302
Assessment Centers (AC)	303
Assessment Center: The Beginnings	304
Level and Purpose of Assessment	305
Duration and Size	305
Assessors and Their Training	306
Performance Feedback	307
Reliability of the Assessment Process	307
Validity	308
Fairness and Adverse Impact	309
Assessment Center Utility	309
Potential Problems	310
Combining Predictors	311
■ Evidence-Based Implications for Practice	313
<i>Discussion Questions</i>	314

Chapter 14 Decision Making for Selection 315

At a Glance	315
Personnel Selection in Perspective	315
Classical Approach to Personnel Selection	316
Efficiency of Linear Models in Job-Success Prediction	318
Unit Weighting	318
Suppressor Variables	319
Data-Combination Strategies	320
Effectiveness of Alternative Data-Combination Strategies	321
Alternative Prediction Models	322
Multiple-Regression Approach	322
Multiple-Cutoff Approach	323
Multiple-Hurdle Approach	326
Extending the Classical Validity Approach to Selection Decisions: Decision-Theory Approach	328
The Selection Ratio	328

The Base Rate	330
Utility Considerations	331
Evaluation of the Decision-Theory Approach	331
Speaking the Language of Business: Utility Analysis	332
The Naylor–Shine Model	333
The Brogden–Cronbach–Gleser Model	334
Further Developments of the Brogden–Cronbach–Gleser Model	335
Application of the Brogden–Cronbach–Gleser Model and the Need to Scrutinize Utility Estimates	337
The Strategic Context of Personnel Selection	341
■ Evidence-Based Implications for Practice	342
<i>Discussion Questions</i>	342
Chapter 15 Training and Development: Considerations in Design	343
At a Glance	343
Training Design	345
Characteristics of Effective Training	345
Additional Determinants of Effective Training	346
Fundamental Requirements of Sound Training Practice	346
Defining What Is to Be Learned	349
The Training and Development Subsystem	349
Assessing Training Needs	350
Organization Analysis	351
Demographic Analysis	351
Operations Analysis	351
Person Analysis	353
Individual Development Plans (IDPs)	353
Training Objectives	353
Creating an Optimal Environment for Training and Learning	354
Team Training	355
Theoretical Models to Guide Training and Development Efforts	357
Trainability and Individual Differences	357
Principles that Enhance Learning	358
Knowledge of Results (Feedback)	358
Transfer of Training	359
Self-Regulation to Maintain Changes in Behavior	360
Adaptive Guidance	361
Reinforcement	361
Practice	362
Active Practice	362
Overlearning	362

Length of the Practice Session 362
Motivation 363
Goal Setting 364
Behavior Modeling 365
■ Evidence-Based Implications for Practice 366
 Discussion Questions 367

Chapter 16 Training and Development: Implementation and the Measurement of Outcomes 368

At a Glance 368
Computer-Based Training 370
Selection of Technique 371
Measuring Training and Development Outcomes 371
 Why Measure Training Outcomes? 372
Essential Elements for Measuring Training Outcomes 372
 Criteria 373
 Additional Considerations in Measuring the Outcomes of Training 375
 Strategies for Measuring the Outcomes of Training in Terms of Financial Impact 376
 Influencing Managerial Decisions with Program-Evaluation Data 378
Classical Experimental Design 379
 Design A 381
 Design B 381
 Design C 382
 Design D 382
 Limitations of Experimental Designs 384
Quasi-Experimental Designs 385
 Design E 386
 Design F 387
 Design G 388
 Design H 388
Statistical, Practical, and Theoretical Significance 389
 Logical Analysis 390
 ■ Evidence-Based Implications for Practice 391
 Discussion Questions 391

Chapter 17 International Dimensions of Applied Psychology 392

At a Glance 392
Globalization, Culture, and Psychological Measurement 392
Globalization and Culture 393
Country-Level Cultural Differences 394

The Globalization of Psychological Measurement	396
Transporting Psychological Measures across Cultures	396
Terminology	397
Identification of Potential for International Management	397
Selection for International Assignments	399
General Mental Ability	399
Personality	400
Other Characteristics Related to Success in International Assignments	401
Cross-cultural Training	403
Performance Management	405
Performance Criteria	405
Repatriation	408
Planning	408
Career Management	409
Compensation	409
■ Evidence-Based Implications for Practice	409

Chapter 18 Organizational Responsibility and Ethical Issues in Human Resource Management 411

At a Glance	411
Organizational Responsibility: Definition and General Framework	412
Organizational Responsibility: Benefits	414
Organizational Responsibility: Implementation and the Role of HRM Research and Practice	416
Employee Privacy	419
Safeguarding Employee Privacy	420
Fair Information Practice in the Information Age	421
Employee Searches and Other Workplace Investigations	422
Testing and Evaluation	423
Obligations to One's Profession	424
Obligations to Those Who Are Evaluated	425
Obligations to Employers	426
Individual Differences Serving as Antecedents of Ethical Behavior	427
Ethical Issues in Organizational Research	428
Ethical Issues at the Research-Planning Stage	428
Ethical Issues in Recruiting and Selecting Research Participants	429
Ethical Issues in Conducting Research: Protecting Research Participants' Rights	429
Ethical Issues in Reporting Research Results	431

Strategies for Addressing Ethical Issues in Organizational Research	432
Science, Advocacy, and Values in Organizational Research	434
■ Evidence-Based Implications for Practice	436
<i>Discussion Questions</i>	436

Appendix A Scientific and Legal Guidelines on Employee Selection Procedures—Checklists for Compliance 437

Scientific Guidelines—Summary Checklist	437
Sources of Validity Evidence	437
Choice of Predictors	438
Choice of Participants	438
Data Analysis for Criterion-Related Validity	439
Generalizing Validity Evidence	440
Fairness and Bias	441
Operational Considerations	441
Requirements	441
Communicating the Effectiveness of Selection Procedures	443
Appropriate Use of Selection Procedures	443
Legal Guidelines on Employee Selection Procedures	445
1. Adverse Impact	445
2. Validation	446
3. Criterion-Related Validity	447
4. Content Validity	449
5. Construct Validity	450
6. Validity Generalization	450
7. Application	451

Appendix B An Overview of Correlation and Linear Regression 453

The Concept of Correlation	453
The Concept of Regression	454
Making Predictions Based on Multiple Predictors	457
Predictive Accuracy of Multiple Regression	459

Appendix C Decision Trees for Statistical Methods 461
