Correction to: *Scientific Reports* https://doi.org/10.1038/s41598-018-19486-9, published online 17 January 2018

This Article contains errors. Figure 8 was misassembled during the preparation of the manuscript: incorrect images were used for panel 8C, and for the vehicle image in panel 8E. The correct Figure 8 appears below as Figure 1.

The conclusions of the Article are unaffected by this correction.

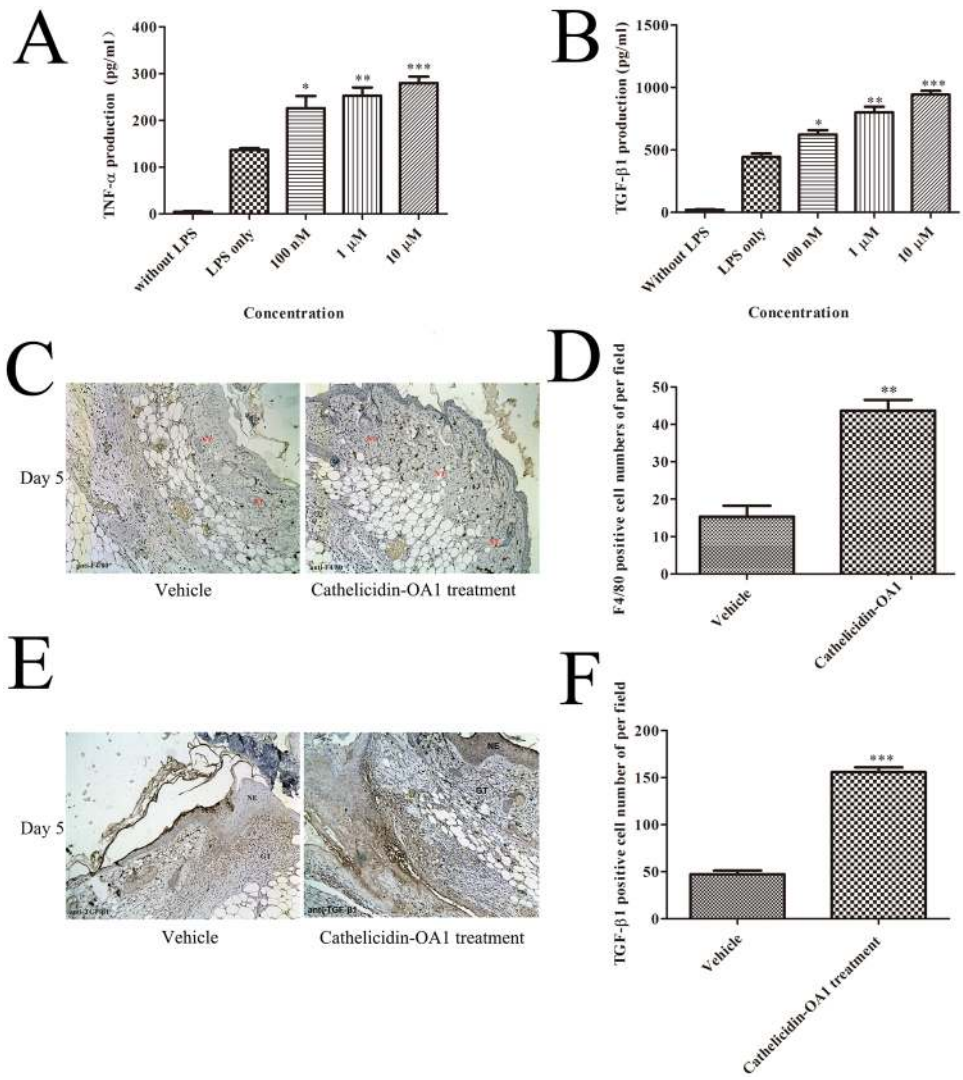

Figure 1. Cathelicidin-OA1 promoted the secretion of TNF-α and TGF-β, macrophages recruitment, TGF-β expression. (**A**,**B**) THP-1 cells were stimulated by LPS to secrete TNF-α and TGF-β1. Incubation with cathelicidin-OA1 at different concentrations resulted in the dose-dependent increase in TNF-α and TGF-β1 secretion. *$P < 0.05$, **$P < 0.01$, and ***$P < 0.0001$ indicate significantly different from the negative control (Student's *t*-test). Data are mean values of three independent experiments performed in triplicate. (**C**,**E**) Immunohistochemical results for anti-F4/80 and TGF-β1. (**D**,**F**) F4/80 or TGF-β1 positive cell numbers per high power field were significantly different between cathelicidin-OA1 treatment and the control. **$P < 0.01$ and ***$P < 0.0001$. Data are mean values of three independent experiments performed in triplicate and six different fields for each section (×100).
