Preface *page* xi

Part I Introduction 1

1 Introduction to media-sharing social networks 3

1.1 Quantitative analysis of social networks 5
1.2 Understanding media semantics in media-sharing networks 10

2 Overview of multimedia fingerprinting 14

2.1 Traitor-tracing multimedia fingerprinting 15
2.2 Scalable video coding system 17
2.3 Scalable video fingerprinting 18

3 Overview of mesh-pull peer-to-peer video streaming 24

3.1 Mesh-pull structure for P2P video streaming 25
3.2 User dynamics in peer-to-peer video streaming 33

4 Game theory for social networks 41

4.1 Noncooperative and cooperative games 42
4.2 Noncooperative games 43
4.3 Bargaining games 50

Part II Behavior forensics in media-sharing social networks 55

5 Equal-risk fairness in colluder social networks 57

5.1 Equal-risk collusion 57
5.2 Influence on the detector's side: collusion resistance 63
5.3 Traitor-tracing capability of scalable fingerprints 75
5.4 Chapter summary and bibliographical notes 82

6 Leveraging side information in colluder social networks 85

6.1 Probing and using side information 85
6.2 Game-theoretic analysis of colluder detector dynamics 93
6.3 Equilibrium analysis 94
6.4 Simulation results 103
6.5 Chapter summary and bibliographical notes 109

7 Risk–distortion analysis of multiuser collusion 111

7.1 Video fingerprinting 112
7.2 Risk–distortion modeling 113
7.3 Strategies with side information 117
7.4 Parameter estimation 122
7.5 Simulation results 122
7.6 Chapter summary and bibliographical notes 127

Part III Fairness and cooperation stimulation 129

8 Game-theoretic modeling of colluder social networks 131

8.1 Multiuser collusion game 132
8.2 Feasible and Pareto optimal collusion 137
8.3 When to collude 139
8.4 How to collude: the bargaining model 150
8.5 How to collude: examples 155
8.6 Maximum payoff collusion 160
8.7 Chapter summary and bibliographical notes 167

9 Cooperation stimulation in peer-to-peer video streaming 169

9.1 Incentives for peer cooperation over the Internet 170
9.2 Wireless peer-to-peer video streaming 178
9.3 Optimal cooperation strategies for wireless video streaming 181
9.4 Optimal chunk request algorithm for P2P video streaming with scalable coding 189
9.5 Chapter summary and bibliographical notes 193

10 Optimal pricing for mobile video streaming 195

10.1 Introduction 195
10.2 System model 196
10.3 Optimal strategies for single secondary buyer 198
10.4 Multiple secondary buyers 206
10.5 Optimal pricing for the content owner 208
10.6 Chapter summary and bibliographical notes 217

Part IV Misbehaving user identification 219

11 Cheating behavior in colluder social networks 221

11.1 Traitors within traitors via temporal filtering 222
11.2 Traitors within traitors in scalable fingerprinting systems 227
11.3 Chapter summary 245

12 Attack resistance in peer-to-peer video streaming 247

12.1 Attack-resistant cooperation strategies in P2P video streaming over the Internet 248
12.2 Attack-resistant cooperation strategies in wireless P2P video streaming 261
12.3 Chapter summary and bibliographical notes 273

Part V Media-sharing social network structures 275

13 Misbehavior detection in colluder social networks with different structures 277

13.1 Behavior dynamics in colluder social networks 278
13.2 Centralized colluder social networks with trusted ringleaders 280
13.3 Distributed peer-structured colluder social networks 289
13.4 Chapter summary and bibliographical notes 306

14 Structuring cooperation for hybrid peer-to-peer streaming 308

14.1 System model and utility function 309
14.2 Agent selection within a homogeneous group 311
14.3 Agent selection within a heterogeneous group 317
14.4 Distributed learning algorithm for ESS 320
14.5 Simulation results 320
14.6 Chapter summary and bibliographical notes 325
