Coherent population trapping and Fano profiles — Source link

Brahim Lounis, Claude Cohen-Tannoudji

Institutions: Collège de France

Published on: 01 Apr 1992 - Journal De Physique Ii (EDP Sciences)

Topics: Scattering, Fano resonance, Scattering theory, Scattering amplitude and Scattering length

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.
