*Nature Communications* 6:7309 doi: 10.1038/ncomms8309 (2015); Published online 12 Jun 2015; Updated 12 Aug 2015

In the last paragraph of the Discussion section in this Article, the hybrid *Ler* & C24 was incorrectly referred to as *Ler* & Col-0. The following is the correct sentence: 'The F1 hybrids from two combinations (*Col-0* & C24 and *Ler* & C24), which exhibit heterosis for biomass<sup>11,14</sup>, show no heterosis for biotrophic bacteria defence in our study (Supplementary Fig. 11)'.
