SORTING OUT THE CELLULAR FUNCTIONS OF SORTING NEXINS

Carolyn A. Worby and Jack E. Dixon

Nature Rev. Mol. Cell Biol. **3**, 919–931 (2002)

The authors would like to apologize for the following omissions:

The following reference should have been included in the reference list:

92. Wang, Y., Zhou, Y., Szabo, K., Haft, C. R. & Trejo, J. Down-regulation of protease-activated receptor-1 is regulated by sorting nexin 1. *Mol. Biol. Cell* **13**, 1965–1976 (2002).

Reference 92 should have been cited on page 926, right column, 2nd line, at the end of the sentence: 'Finally, downregulation of G-protein-coupled protease-activated receptor-1 (PAR1) is regulated by SNX1 (REF. 92).'

On page 926, right column, 1st line, the abbreviation 'PARS1' should have read 'PAR1'

On page 922, Table 1, 4th column, 1st row, 'PAS1*' should have read 'PAR1*'; and a definition of the acronym should have appeared in the table's footnote: PAR1, protease-activated receptor-1.

The online versions of the article have been corrected.
