In the above titled paper (this Annals Vol. 45, No. 2 (1993), pp. 293–302), equation (2.8) should read as

$$\pi(\theta \mid X) = \frac{\hat{\pi}}{N_{\pi}(X)} \left[\exp\left\{ -\frac{1}{2}W(\pi, X, h) + \frac{1}{2}n^{-1}G_{5}(\pi) \right\} + o(n^{-1}) \right].$$

A corresponding change should also be made in the equation just preceding (2.8).
