Introduction: The End of Europeanism by Stathis Kouvelakis	xiv
Glossary	xxii

PART 1 BEGGAR THYSELF AND THY NEIGHBOUR

1	Several dimensions of a public debt crisis	1
	<i>A crisis with deep roots</i>	1
	<i>Institutional bias and malfunction in the eurozone</i>	2
	<i>Peripheral countries in the shadow of Germany</i>	4
	<i>The impact of the crisis of 2007–9 and the role of finance</i>	5
	<i>Policy options for peripheral countries</i>	7
	<i>The order of analysis in Part 1</i>	11
2	Macroeconomic performance: Stagnation in Germany, bubbles in the periphery	13
	<i>Growth, unemployment and inflation</i>	13
	<i>Investment and consumption</i>	16
	<i>Debt</i>	19
3	Labour remuneration and productivity: A general squeeze, but more effective in Germany	22
	<i>A race to the bottom</i>	22
	<i>The determinants of German competitive success</i>	23
	<i>Real compensation and the share of labour in output</i>	26

4	International transactions: Trade and capital flows in the shadow of Germany	29
	<i>Current account: Surplus for Germany, deficits for periphery</i>	29
	<i>Financial account: German FDI and bank lending to the periphery</i>	31
5	Rising public sector borrowing: Dealing with failed banks and worsening recession	35
	<i>The straitjacket on fiscal policy</i>	35
	<i>Rising public deficits and debt due to the crisis</i>	37
6	The financial sector: How to create a global crisis and then benefit from it	42
	<i>An institutional framework that favours financial but also productive capital</i>	42
	<i>Banking in the eurozone: The core becomes exposed to the periphery</i>	44
	<i>ECB operations allow banks to restrict their lending</i>	51
	<i>Sovereign debt rises</i>	53
	<i>A hothouse for speculation</i>	56
7	Political economy of alternative strategies to deal with the crisis	59
	<i>Austerity, or imposing the costs on workers in peripheral countries</i>	59
	<i>Reform of the eurozone: Aiming for a 'good euro'</i>	63
	<i>Exit from the eurozone: Radical social and economic change</i>	68

PART 2: THE EUROZONE BETWEEN AUSTERITY AND DEFAULT

8	Introduction	75
9	A profusion of debt: If you cannot compete, keep borrowing	79
	<i>The magnitude of peripheral debt</i>	79
	<i>The economic roots of external debt</i>	84
	<i>The composition of peripheral debt: Domestic financialisation and external flows</i>	91

10	Rescuing the banks once again	99
	<i>Banks in the eye of the storm</i>	99
	<i>Funding pressures on European banks</i>	103
	<i>The European support package and its aims</i>	107
	<i>The chances of success of the rescue package</i>	111
11	Society pays the price: Austerity and further liberalisation	113
	<i>The spread of austerity and its likely impact</i>	114
	<i>The periphery takes the brunt of austerity policy</i>	119
	<i>Mission impossible?</i>	121
12	The spectre of default in Europe	126
	<i>Default, debt renegotiation and exit</i>	126
	<i>Creditor-led default: Reinforcing the straitjacket of the eurozone</i>	128
	<i>Debtor-led default and the feasibility of exit from the eurozone</i>	130
Appendix 2A The crisis last time: Argentina and Russia		136
	The Washington Consensus brings collapse to Buenos Aires	136
	Some lessons from Argentina	140
	Russia's transition from a planned economy:	
	Collapse and recovery	142
	Default is not such a disaster, after all	145
Appendix 2B Construction of aggregate debt profiles		147
	Greece	149
Appendix 2C Decomposition of aggregate demand		153
PART 3: BREAKING UP? A RADICAL ROUTE OUT OF THE EUROZONE CRISIS		
13	Hitting the buffers	155
	<i>A global upheaval</i>	155
	<i>The euro: A novel form of international reserve currency</i>	156
	<i>The euro mediates the global crisis in Europe</i>	159

14	Monetary disunion: Institutional malfunctioning and power relations	166
	<i>The ECB and the limits of liquidity provision</i>	167
	<i>EFSF and ESM fumbling</i>	176
15	Failing austerity: Class interests and institutional fixes	180
	<i>Virtuous austerity: Hurting without working</i>	180
	<i>Desperately searching for alternatives</i>	184
16	Centrifugal finance: Re-strengthened links between banks and nation states	193
	<i>The re-strengthening of national financial relations</i>	193
	<i>Greek banks draw closer to the Greek state</i>	202
17	The social and political significance of breaking up	207
	<i>The context of rupture</i>	207
	<i>Modalities of default</i>	211
18	Default and exit: Cutting the Gordian knot	215
	<i>Greece defaults but stays in the EMU</i>	219
	<i>Greece defaults and exits the EMU</i>	222
	<i>In lieu of a conclusion</i>	238
	Index	239
