### Erratum to: *Veget Hist Archaeobot* DOI 10.1007/s00334-011-0329-8

As most of the raw data of this contribution, part of the IWGP session on the *Origins of agriculture in the Near East* and therefore included in the special issue on this topic (VHA 21/2), has been published already (Purugganan and Fuller 2011), the article type is changed from ‘Original Article’ to ‘Discussion’.

Likewise the first sentence of the last paragraph on the second page of the article (Prior to the study reported here, however, domestication rates have not been systematically calculated.) needs to be replaced by: Prior to the study of Purugganan and Fuller (2011), domestication rates had not been systematically calculated for archaeological crops. The present paper extends the discussion of those results.
