# Contents

<b>Preface</b>	<i>vii</i>
<b>I Some Preliminaries</b>	<b>1</b>
I.0 Introduction .....	1
I.1 Metric Spaces .....	1
I.2 Topological Spaces .....	3
I.3 Metric Topologies and Metrizable Spaces .....	3
I.4 Base for the Neighbourhood System of a Point and Base for a Topology .....	5
I.5 Continuity in Topological Spaces .....	6
I.6 Connectedness and Compactness .....	7
I.7 Countability and Separation Axioms .....	10
I.8 Linear Algebra .....	15
<b>II Differentiable Manifolds</b>	<b>27</b>
II.1 Introduction .....	27
II.2 Differentiable Structures Defined on Sets .....	44
II.3 Differentiable Functions on a Manifold .....	50
II.4 Tangent Spaces .....	54
II.4.1 Tangent Vector as an Equivalence Class of Curves .....	55
II.4.2 Tangent Vector as a Directional Derivative Operator .....	56
II.4.3 Algebraic Approach of Tangent Vectors.....	63
II.4.4 Differentials of Smooth Maps .....	70
II.5 Vector Fields on Differentiable Manifolds .....	92
II.5.1 Vector Fields and Lie Bracket .....	92
II.5.2 $f$ -Related Vector Fields .....	107
II.6 Integral Curves and Flows .....	110
II.6.1 Integral Curves .....	110
II.6.2 One Parameter Group of Transformations of a Manifold .....	118
<b>III Exterior Algebra and Exterior Derivative</b>	<b>131</b>
III.1 Tensor Products .....	131
III.2 Tensor Algebra .....	134
III.3 Exterior Algebra .....	138
III.4 Exterior Derivative .....	150
<b>IV Lie Group and Lie Algebras</b>	<b>161</b>
IV.1 Introduction .....	161

IV.2	The Lie Algebra of a Lie Group .....	166
IV.3	Lie Groups Homomorphism and Isomorphism .....	171
IV.4	One Parameter Subgroups and Exponential Map .....	173
IV.5	Lie Transformation Groups .....	176
IV.6	Lie Derivative .....	181
<b>V</b>	<b>Fibre Bundles</b>	<b>188</b>
V.1	Principal Fibre Bundle .....	188
V.2	Definition of Cross Section .....	189
V.3	Linear Frame Bundle .....	190
V.4	Associated Principal Bundle .....	190
V.5	Vector Bundles .....	191
V.6	Bundle Homomorphism .....	192
V.7	Tangent Bundle .....	192
V.8	Fundamental Vector Field .....	193
<b>VI</b>	<b>Linear Connections</b>	<b>194</b>
VI.1	Affine Connections .....	194
VI.2	Torsion Tensor of an Affine Connection .....	203
VI.3	Curvature Tensor of an Affine Connection .....	210
VI.4	Some Exercises .....	214
<b>VII</b>	<b>Riemannian Manifolds</b>	<b>217</b>
VII.1	Introduction .....	217
VII.2	Riemannian Connection .....	222
VII.3	Riemann Curvature Tensor .....	228
VII.4	Riemannian Manifold as a Metirc Space .....	239
VII.5	Some Connections on a Riemannian Manifold .....	243
VII.6	Sectional Curvature of a Riemannian Manifold .....	252
VII.7	Some Transformations on Riemannian Manifolds .....	259
<b>VIII</b>	<b>Submanifolds</b>	<b>274</b>
VIII.1	Submanifolds of a Riemannian Manifold .....	274
VIII.2	Induced Connection and Second Fundamental Form .....	276
VIII.3	Equations of Gauss, Codazzi and Ricci .....	277
VIII.4	Mean Curvature .....	278
<b>IX</b>	<b>Complex Manifolds</b>	<b>279</b>
IX.1	Algebraic Preliminaries .....	279
IX.2	Almost Hermite Manifold .....	282
IX.3	Kähler Manifold .....	283
IX.4	Almost Tachibana Manifold .....	285

IX.5	Holomorphic Sectional Curvature .....	286
IX.6	F-Connection .....	288
IX.7	Holomorphically Planar Curves .....	292
	<b>Bibliography</b>	<b>293</b>
	<b>Index</b>	<b>294</b>
