

DIFFUSION OF INNOVATIONS

Fourth Edition

EVERETT M. ROGERS

THE FREE PRESS

New York London Toronto Sydney Tokyo Singapore

CONTENTS

<i>Preface</i>	xv
CHAPTER 1. ELEMENTS OF DIFFUSION	1
<i>Water Boiling in a Peruvian Village: Diffusion That Failed</i>	1
<i>Why Did the Diffusion of Water-Boiling Fail?</i>	4
What Is Diffusion?	5
<i>Controlling Scurvy in the British Navy:</i>	
<i>Innovations Do Not Sell Themselves</i>	7
<i>Nondiffusion of the Dvorak Keyboard</i>	8
Four Main Elements in the Diffusion of Innovations	10
1. The Innovation	11
Technological Innovations, Information, and Uncertainty	12
Technology Clusters	14
Characteristics of Innovations	15
Re-Invention	17
2. Communication Channels	17
Heterophily and Diffusion	18
3. Time	20
The Innovation-Decision Process	20
Innovativeness and Adopter Categories	22
Rate of Adoption	22
4. A Social System	23
Social Structure and Diffusion	24
System Norms and Diffusion	26

Opinion Leaders and Change Agents	26
Types of Innovation-Decisions	28
Consequences of Innovations	30
<i>Diffusion of Hybrid Corn in Iowa</i>	31
Summary	35
CHAPTER 2. A HISTORY OF DIFFUSION RESEARCH	38
The Beginnings of Diffusion Research in Europe	39
Gabriel Tarde and Imitation	39
The British and German-Austrian Diffusionists	41
The Rise of Diffusion Research Traditions	41
Paradigms and Invisible Colleges	44
The Anthropology Research Tradition	46
<i>Miracle Rice in Bali: The Goddess and the Computer</i>	48
Early Sociology	51
Rural Sociology	52
The Hybrid Corn Study and the Diffusion Paradigm	53
The Invisible College of Rural Sociology Diffusion Researchers	55
Rural Sociology Diffusion Research in Third World Nations	56
Decline of the Diffusion Paradigm in Rural Sociology	59
<i>Hard Tomatoes and Hard Times</i>	61
Education	63
The Teachers College Studies	63
Later Studies in Educational Diffusion	64
<i>The Diffusion of Modern Math in Pittsburgh</i>	65
Public Health and Medical Sociology	66
<i>The Columbia University Drug Study</i>	66
Family Planning Diffusion in Third World Nations	69
<i>The Taichung Field Experiment</i>	71
Communication	74
<i>Diffusion of News</i>	75
Later Communication Research on Diffusion	78
Marketing	79
The Bass Forecasting Model	79
Social Marketing	83
Advantages and Disadvantages of the Marketing Diffusion Tradition	86

Geography	86
General Sociology	87
General Economics	88
A Typology of Diffusion Research	88
Summary	94
CHAPTER 3. CONTRIBUTIONS AND CRITICISMS OF DIFFUSION RESEARCH	96
The Status of Diffusion Research Today	96
Criticisms of Diffusion Research	99
The Pro-Innovation Bias of Diffusion Research	100
<i>Pure Drinking Water in Egyptian Villages: Overcoming the Pro-Innovation Bias</i>	101
Reasons for the Pro-Innovation Bias	104
Overcoming the Pro-Innovation Bias	106
<i>Bottle-Feeding Babies in the Third World</i>	112
The Individual-Blame Bias in Diffusion Research	114
Individual-Blame Versus System-Blame	114
Individual-Blame and the Diffusion of Innovations	117
Reasons for Individual-Blame	118
Overcoming the Individual-Blame Bias	121
The Recall Problem in Diffusion Research	121
Problems in Measuring the Time of Adoption	121
Problems in Determining Causality	123
Alternatives to Diffusion Surveys	124
The Issue of Equality in the Diffusion of Innovations	125
Third World Development	125
Appropriateness of the Diffusion Paradigm to Third World Nations	127
Socioeconomic Gaps and Diffusion	128
Summary	129
CHAPTER 4. THE GENERATION OF INNOVATIONS	131
The Innovation-Development Process	132
1. Recognizing a Problem or Need	132

2. Basic and Applied Research	134
3. Development	137
The Role of Uncertainty in R&D	137
How the Refrigerator Got Its Hum	138
The Social Construction of Technology	139
Skunkworks	139
Technology Transfer	140
4. Commercialization	143
The Trail of the Mouse: From SRI to Xerox to Apple	143
5. Diffusion and Adoption	148
6. Consequences	150
Serendipity in the Discovery of Warfarin	150
Socioeconomic Status, Equality, and Innovation-Development	151
Hard Tomatoes in California	152
Tracing the Innovation-Development Process	154
Shortcomings of the Tracer Studies	156
Future Research on the Innovation-Development Process	157
The Agricultural Extension Model	157
Summary	159
CHAPTER 5. THE INNOVATION-DECISION PROCESS	161
A Model of the Innovation-Decision Process	162
Knowledge Stage	162
Which Comes First, Needs or Awareness of an Innovation?	162
Types of Knowledge About an Innovation	165
Early Versus Late Knowers of Innovations	166
Persuasion Stage	167
Decision Stage	171
Implementation Stage	172
Re-Invention	174
How Much Re-Invention Occurs?	175
Re-Invention Is Not Necessarily Bad	176
Why Does Re-Invention Occur?	178
Re-Invention of Horse Culture by the Plains Indians	180

Confirmation Stage	180
Dissonance	181
Discontinuance	182
<i>Forced Discontinuance and the Rise of Organic Farming</i>	185
Are There Stages in the Process?	187
Evidence of Stages	187
Variance and Process Research	188
The Hierarchy of Effects	189
Communication Channels by Stages in the Innovation-Decision Process	191
<i>Communication Channels in the Innovation-Decision Process for Tetracycline</i>	191
Categorizing Communication Channels	194
Mass Media Versus Interpersonal Channels	195
Cosmopolite Versus Localite Channels	196
Communication Channels by Adopter Categories	197
The Innovation-Decision Period	197
Rate of Awareness-Knowledge and Rate of Adoption	198
Length of the Period by Adopter Category	199
Summary	201
CHAPTER 6. ATTRIBUTES OF INNOVATIONS AND THEIR RATE OF ADOPTION	204
<i>Black Music in White America: Rap</i>	205
Explaining Rate of Adoption	206
Research on the Attributes of Innovations	208
Postdiction Versus Prediction	210
<i>Predicting the Rate of Adoption of Norplant</i>	211
Relative Advantage	212
Economic Factors and Rate of Adoption	213
Status Aspects of Innovations and Overadoption	213
Overadoption	215
Relative Advantage and Rate of Adoption	216

Preventive Innovations	217
Effects of Incentives	219
Mandates for Adoption	222
Compatibility	224
Compatibility with Values and Beliefs	224
Compatibility with Previously Introduced Ideas	225
Compatibility with Needs	228
<i>The War on Drugs and the Diffusion of D.A.R.E.</i>	228
<i>Birth of the D.A.R.E. Program</i>	229
<i>Diffusion of D.A.R.E.</i>	232
<i>Re-Invention of D.A.R.E. Programs</i>	233
Compatibility and Rate of Adoption	234
Technology Clusters	235
Naming an Innovation	236
Positioning an Innovation	237
Indigenous Knowledge Systems	240
Complexity	242
Trialability	243
Observability	244
<i>Cellular Telephones in the United States</i>	244
<i>Nintendomania: Rapid Adoption of an Entertainment Innovation</i>	246
Summary	250
CHAPTER 7. INNOVATIVENESS AND ADOPTER CATEGORIES	252
<i>The Diffusion of Farm Innovations in Saucío, A Colombian Village in the Andes</i>	253
Classifying Adopter Categories on the Basis of Innovativeness	257
The S-Shaped Curve of Adoption and Normality	257
The Method of Adopter Categorization	261
Adopter Categories as Ideal Types	263
Innovators: Venturesome	263
Early Adopters: Respect	264

Early Majority: Deliberate	264
Late Majority: Skeptical	265
Laggards: Traditional	265
<i>A People Who Said No to Innovation: The Old Order Amish</i>	266
Characteristics of Adopter Categories	268
Socioeconomic Characteristics	269
The “Cancian Dip”	270
Personality Variables	272
Communication Behavior	273
Audience Segmentation and Adopter Categories	274
The Innovativeness–Needs Paradox	275
<i>Innovativeness Among Fisherman</i>	276
Summary	279
CHAPTER 8. DIFFUSION NETWORKS	281
<i>Opinion Leadership in the Diffusion of Modern Math</i>	281
Models of Mass Communication Flows	284
Hypodermic Needle Model	284
Two-Step Flow Model	285
Homophily-Heterophily in Communication Networks	286
Homophily and Heterophily	286
Homophily as a Barrier to Diffusion	288
Measuring Opinion Leadership and Network Links	290
Monomorphic and Polymorphic Opinion Leadership	293
Characteristics of Opinion Leaders	293
External Communication	293
Accessibility	294
Socioeconomic Status	294
Innovativeness	294
Innovativeness, Opinion Leadership, and System Norms	295
<i>Networks in the Diffusion of a Medical Drug</i>	299
Diffusion Networks	304
<i>Patient Zero and Sexual Networks in the Early Spread of AIDS</i>	305
Communication Network Analysis	308

The Strength of Weak Ties Theory	309
Who Is Linked to Whom in Networks?	311
<i>Networks in Recruitment to Freedom Summer</i>	311
The Critical Mass in the Adoption of Interactive Innovations	313
<i>Diffusion of an Interactive Innovation: BITNET and INTERNET</i>	315
Background of the Concept of the Critical Mass	318
Watching While Being Watched	319
Individual Thresholds for Adoption	320
Why Do Individuals Adopt Prior to the Critical Mass?	321
<i>The Critical Mass in the Diffusion of Fax</i>	325
Strategies for Getting to Critical Mass	326
<i>Minitel in France: Getting to Critical Mass</i>	327
Social Learning Theory	330
Summary	332
CHAPTER 9. THE CHANGE AGENT	335
Change Agents as Linkers	336
The Sequence of Change Agent Roles	336
<i>Failing Through Success: Building Village Wells in India</i>	338
Factors in Change Agent Success	339
Change Agent Effort	339
Client Orientation	340
Compatibility with Clients' Needs	340
<i>Sustainability: "Chicken Davis" in Nigeria</i>	341
Change Agent Empathy	342
Communication Campaigns	343
Homophily and Change Agent Contact	346
<i>When Yes Means No</i>	347
Change Agent Contact with Lower-Status Clients	350
Paraprofessional Aides	351
Change Agent Credibility	352
Inauthentic Professionalization of Aides	353
Opinion Leaders	354
The Role of Demonstrations	355

Clients' Evaluative Ability	357
<i>The Agricultural Extension Service</i>	357
<i>Historical Development of the Extension Services</i>	357
<i>State Extension Specialists</i>	360
<i>Broadening the Extension Service Mission</i>	361
<i>Conclusions About the Agricultural Extension Model</i>	362
Centralized and Decentralized Diffusion Systems	364
Comparing Centralized Versus Decentralized Systems	365
Advantages and Disadvantages of Decentralized Diffusion	365
Summary	369
CHAPTER 10. INNOVATION IN ORGANIZATIONS	371
Types of Innovation-Decisions	372
<i>How Thermos Designed a New Electric Grill</i>	373
Organizations	375
Organizational Innovativeness	376
Size and Organizational Innovativeness	379
Structural Characteristics and Organizational Innovativeness	379
<i>Tightening the Iron Cage Through Self-Managing Work Teams</i>	383
<i>Evolution of Airline Computer Reservation Systems</i>	386
The Innovation Process in Organizations	389
1. Agenda-Setting	391
2. Matching	394
3. Redefining/Restructuring	394
Innovation and Organization Structure	395
Innovation and Uncertainty	397
Innovation Champions	398
4. Clarifying	399
5. Routinizing	399
<i>The Santa Monica Freeway Diamond Lane Experiment: How Not to Implement an Innovation</i>	400
Summary	403

CHAPTER 11. CONSEQUENCES OF INNOVATIONS	405
<i>The Snowmobile Revolution in the Arctic</i>	406
Studying Consequences	409
Classifications of Consequences	412
Desirable Versus Undesirable Consequences	412
Windfall Profits	413
Separability of Desirable and Undesirable Consequences	414
Direct Versus Indirect Consequences	415
ORT: Consequences of Consequences	417
Anticipated Versus Unanticipated Consequences	419
<i>Steel Axes for Stone-Age Aborigines</i>	421
Form, Function, and Meaning of an Innovation	422
<i>The Irish Potato Famine</i>	423
Achieving a Dynamic Equilibrium	424
<i>Organic Farming and the Discontinuance of Pesticides</i>	425
Equality in the Consequences of Innovations	429
The Communication Effects Gap	430
Gap-Widening Consequences of the Diffusion of Innovations	433
Social Structure and the Equality of Consequences	435
Strategies for Narrowing Gaps	436
I. The Ups Have Greater Access to Information, Creating Awareness About In-	
novations, Than the Downs.	437
II. The Ups Have Greater Access to Innovation-Evaluation Information from	
Peers Than Do the Downs.	438
III. The Ups Possess Greater Slack Resources for Adopting Innovations Than	
Do the Downs.	439
Wider Gaps Are Not Inevitable	439
Summary	440
<i>Bibliography</i>	443
<i>Name Index</i>	503
<i>Subject Index</i>	509
<i>About the Author</i>	519
