Erratum for the article “Effect of Tramiprosate in Patients with Mild-to-Moderate Alzheimer's Disease: Exploratory Analyses of the MRI Sub-Group of the Alphase Study” by Gauthier et al., J Nutr Health Aging. 2009 Jul;13(6):550-7. Results section, page 554, second column, the P values for the change in ADAS-cog scores are given incorrectly. The correct

sentence should read as follows (revisions in bold): “Results for the change in ADAS-cog scores showed a marginally significant overall treatment effect (**P = 0.091**) and a non-significant interaction of treatment with time (**P = 0.883**).” These corrections have no impact on the conclusions of the study outcomes. The authors regret the errors.
