Effect of volume fraction and particle size on the microstructure and plastic deformation of Mg–Y₂O₃ composites — [Source link](#)

G. Garcés, M. Rodríguez, Pablo Pérez, Paloma Adeva

Institutions: Spanish National Research Council

Published on: 15 Mar 2006 - Materials Science and Engineering A-structural Materials Properties Microstructure and Processing (Elsevier)

Topics: Volume fraction, Texture (crystalline), Deformation (engineering), Extrusion and Compression (physics)
