*Erratum to: Lange B, et al. Efficacy and safety of tapentadol prolonged release for chronic osteoarthritis pain and low back pain. Adv Ther. 2010;27(6):381-399.*

The publishers would like to apologize for an error that occurred in the publication of the above-mentioned article, by Bernd Lange and colleagues, in which the Y-axis of Figure 3 has been compromised during the production process.

We have attached the revised figure below, for clarification.

**Figure 3.** Mean change from baseline in average pain intensity over time using the last observation carried forward (intent-to-treat population).
