ISBN electronic edition: 978-90-367-3808-1

# Contents

Chapter 1	General introduction	7
Chapter 2	Distinct information processing characteristics in dyslexia and ADHD during a covert orienting task: An event-related potential study	27
Chapter 3	Information processing differences and similarities in adults with dyslexia and attention-deficit hyperactivity disorder during a Continuous Performance Test: A study of cortical potentials	59
Chapter 4	Reduced interhemispheric coherence in dyslexic adults	93
Chapter 5	An electrocortical measure of visual orienting discriminates infants at risk for dyslexia from controls at 5 months	107
	Summary and general discussion	119
	Nederlandse samenvatting	129
	Dankwoord	137
