Correction for 'Engineering spin and antiferromagnetic resonances to realize an efficient direction-multiplexed visible meta-hologram' by Muhammad Afnan Ansari *et al.*, *Nanoscale Horiz.*, 2020, 5, 57–64.

The authors regret that a funding source was omitted in the 'Acknowledgements' section of the original article. A revised version of the 'Acknowledgements' section, adding the funding received from the National Research Foundation of Korea under grant number NRF-2019R1A5A8080290, is provided below.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.

### Acknowledgements

This work was supported by the LGD-SNU incubation program and the National Research Foundation of Korea (NRF) grants (NRF-2019R1A2C3003129, CAMM-2019M3A6B3030637, NRF-2018M3D1A1058998, NRF-2015R1A5A1037668, NRF-2019R1A5A8080290) funded by the Ministry of Science and ICT (MSIT) of the Korean government. This work was also supported by the Government of the Russian Federation through the ITMO Fellowship and Professorship Program. The work was also supported by Higher Education Commission of Pakistan (Award No. 10177). M. A. A. acknowledges the Scientific and Technological Research Council of Turkey (TÜBİTAK) for the research grant "2216 – Research Scholarship for International Researchers (Award No. B.14.2.TBT.0.06.01.02-216-10539)". M. Q. M., T. T., and M. Z. acknowledge an internal research grant from ITU. I. K. acknowledges the Global PhD fellowship (NRF-2016H1A2A1906519) by NRF-MIST of the Korean government. I. R. gratefully acknowledges the financial support from the Russian Science Foundation (RSF) (Grant No. 19-13-00332).
