	GPs as a source of social	Presentation guided by a user + quiz	Meet experts to solve a problem
	support for older patients	Animated cartoon + quiz	

^a the subjects were the same for both forms of intervention

performed by a user).

^b quiz assumed repetition of knowledge or a technic previously presented, its completion allowed to receive a trophy which served as a mnemonic and an award in the game

^c it assumed that the user decided on the order of subjects' selection

^d each video presented 8-10 minute GP-older patient conversation and was recorded on the purpose of the project ^e e-learning was designed as a story. Each module began with a meeting with a Master (unidentified very important person) who ordered missions and ended with a report summarizing a module (it was arranged as another task
