## Dissecting direct reprogramming through integrative genomic analysis

Tarjei S. Mikkelsen, Jacob Hanna, Xiaolan Zhang, Manching Ku, Marius Wernig, Patrick Schorderet, Bradley E. Bernstein, Rudolf Jaenisch, Eric S. Lander & Alexander Meissner

*Nature* 454, 49–55 (2008)

---

In both the Methods Summary and the online-only Methods (cell culture section), the concentration of AZA is incorrectly listed as 0.5 mM. The correct final concentration is 0.5  $\mu$ M.
