On page 1302 of the article cited above, the wording of the following sentence was incorrect: “In contrast, net prices received by the manufacturer increased at a more modest rate with CAGRs of 3–36%—more in line with the rate of inflation for the overall economy.” The sentence should read “In contrast, net prices received by the manufacturer increased at a more modest rate (3–36%) with CAGRs of 0.2–2.1%.”

The online version (<https://doi.org/10.2337/dc18-0019>) has been corrected to reflect this change.
