# CONTENTS

<b>Preface</b>	ix
<b>Chapter 1</b> LIDSTONE INTERPOLATION	
1.1 Introduction	1
1.2 Lidstone Polynomials	2
1.3 Interpolating Polynomial Representations	17
1.4 Error Representations	17
Peano's Representation	18
Cauchy's Representation	18
1.5 Error Estimates	19
1.6 Lidstone Boundary Value Problems	21
Existence and Uniqueness	21
Picard's and Approximate Picard's Iteration	29
Quasilinearization and Approximate Quasilinearization	43
References	59
<b>Chapter 2</b> HERMITE INTERPOLATION	
2.1 Introduction	62
2.2 Interpolating Polynomial Representations	63
Method of Lagrange	63
Method of Newton	67
2.3 Error Representations	71
Cauchy's Representation	71
Newton's Representation	72
Peano's Representation	73
A New Representation	77

<b>2.4</b>	<b>Error Estimates</b>	<b>91</b>
	Error Estimates in Interpolation	91
	Error Estimates for Derivatives	105
<b>2.5</b>	<b>Some Applications</b>	<b>149</b>
	Generalized Maximum Principle	149
	Hermite Boundary Value Problems	151
	Generalized Liapunoff's Inequality	161
	Generalized Hartman's Inequality	162
	A Lower Bound for the Zeros of the Solutions	164
	A Test for Disconjugacy	166
	References	168

### **Chapter 3** ABEL - GONTSCHAROFF INTERPOLATION

<b>3.1</b>	<b>Introduction</b>	<b>172</b>
<b>3.2</b>	<b>Interpolating Polynomial Representations</b>	<b>173</b>
<b>3.3</b>	<b>Error Representations</b>	<b>175</b>
	Repeated Integrals Representation	175
	Peano's Representation	175
	Cauchy's Representation	177
<b>3.4</b>	<b>Error Estimates</b>	<b>178</b>
<b>3.5</b>	<b>Some Applications</b>	<b>186</b>
	References	189

### **Chapter 4** MISCELLANEOUS INTERPOLATION

<b>4.1</b>	<b>Introduction</b>	<b>192</b>
<b>4.2</b>	<b><math>(n, p)</math> and <math>(p, n)</math> Interpolation</b>	<b>192</b>
<b>4.3</b>	<b><math>(0, 0; m, n - m)</math> Interpolation</b>	<b>198</b>
<b>4.4</b>	<b><math>(0; m, n - m)</math> Interpolation</b>	<b>203</b>
<b>4.5</b>	<b><math>(0, 2, 0; m, n - m)</math> Interpolation</b>	<b>206</b>
<b>4.6</b>	<b><math>(0 : l - 1, l : l + j - 1; m, n - m)</math> Interpolation</b>	<b>208</b>
<b>4.7</b>	<b><math>(0; \text{Lidstone})</math> Interpolation</b>	<b>209</b>

4.8	(0, 2, 0; Lidstone) Interpolation	210
4.9	(1, 3, 0, 1; Lidstone) Interpolation	211
4.10	(0 : $l - 1, l : l + j - 1$ ; Lidstone) Interpolation	213
4.11	(0, 2, 1; Lidstone) Interpolation	214
	References	216

## Chapter 5 PIECEWISE - POLYNOMIAL INTERPOLATION

5.1	Introduction	217
5.2	Preliminaries	218
5.3	Piecewise Hermite Interpolation	228
5.4	Piecewise Lidstone Interpolation	257
5.5	Two Variable Piecewise Hermite Interpolation	266
5.6	Two Variable Piecewise Lidstone Interpolation	274
	References	278

## Chapter 6 SPLINE INTERPOLATION

6.1	Introduction	281
6.2	Preliminaries	282
6.3	Cubic Spline Interpolation	285
6.4	Quintic Spline Interpolation : $\tau = 4$	290
6.5	Approximated Quintic Splines : $\tau = 4$	301
6.6	Quintic Spline Interpolation : $\tau = 3$	309
6.7	Approximated Quintic Splines : $\tau = 3$	315
6.8	Cubic Lidstone - Spline Interpolation	321
6.9	Quintic Lidstone - Spline Interpolation	323
6.10	$L_2$ - Error Bounds for Spline Interpolation	327
6.11	Two Variable Spline Interpolation	334
6.12	Two Variable Lidstone - Spline Interpolation	346
6.13	Some Applications	350
	Linear Integral Equations	351
	References	360
	Name Index	363
