ERRATA-CORRIGE

FINITELY ADDITIVE CONDITIONAL PROBABILITIES

by
EUGENIO REGAZZINI

Patrizia Berti has kindly pointed out to me a gap in the proof of Theorem 7 (pp. 84-85). In fact, T_2-measurability of f w.r.t. $(\Omega, \mathcal{F})$ need not follow from T_2-measurability of f w.r.t. $(\Omega, \mathcal{H})$. Hence, the first period of the proof is incorrect. The problem can be overcome by assuming that f is T_2-measurable w.r.t. $(\Omega, \mathcal{F})$.
