

Forward Error Correction (FEC) Framework

`draft-ietf-fecframe-framework-14`

IETF 80 – March 2011

Mark Watson, Ali C. Begen and Vincent Roca

`watsonm@netflix.com, abegen@cisco.com, vincent.roca@inria.fr`

Current Status

- We produced four updates since the last meeting to address security, congestion control and ops/management issues
- Currently, we have one DISCUSS left (from David H.)
 - Concerned about interoperability and mandatory security scheme
 - We proposed text changes to address his comments
 - Waiting for his response
