# Foundations of Quantization for Probability Distributions

Springer

# Contents

<b>List of Figures</b>	VIII
<b>List of Tables</b>	IX
<b>Introduction</b>	1
<b>I General properties of the quantization for probability distributions</b>	7
1 Voronoi partitions . . . . .	7
1.1 General norms . . . . .	7
1.2 Euclidean norms . . . . .	16
2 Centers and moments of probability distributions . . . . .	20
2.1 Uniqueness and characterization of centers . . . . .	20
2.2 Moments of balls . . . . .	26
3 The quantization problem . . . . .	30
4 Basic properties of optimal quantizers . . . . .	37
4.1 Stationarity and existence . . . . .	37
4.2 The functional $V_{n,r}$ . . . . .	48
4.3 Quantization error for ball packings . . . . .	50
4.4 Examples . . . . .	52
4.5 Stability properties and empirical versions . . . . .	57
5 Uniqueness and optimality in one dimension . . . . .	64
5.1 Uniqueness . . . . .	64
5.2 Optimal Quantizers . . . . .	66
<b>II Asymptotic quantization for nonsingular probability distributions</b>	77
6 Asymptotics for the quantization error . . . . .	77

7	Asymptotically optimal quantizers . . . . .	93
7.1	Mixtures and partitions . . . . .	93
7.2	Empirical measures . . . . .	96
7.3	Asymptotic optimality in one dimension . . . . .	99
7.4	Product quantizers . . . . .	102
8	Regular quantizers and quantization coefficients . . . . .	106
8.1	Ball lower bound . . . . .	107
8.2	Space-filling figures, regular quantizers and upper bounds . . .	107
8.3	Lattice quantizers . . . . .	111
8.4	Quantization coefficients of one-dimensional distributions . .	121
9	Random quantizers and quantization coefficients . . . . .	127
9.1	Asymptotics for random quantizers . . . . .	127
9.2	Random quantizer upper bound . . . . .	130
9.3	$d$ -asymptotics and entropy . . . . .	132
10	Asymptotics for the covering radius . . . . .	137
10.1	Basic properties . . . . .	137
10.2	Asymptotic covering radius . . . . .	141
10.3	Covering radius of lattices and bounds . . . . .	146
10.4	Stability properties and empirical versions . . . . .	151
<b>III</b>	<b>Asymptotic quantization for singular probability distributions</b>	<b>155</b>
11	The quantization dimension . . . . .	155
11.1	Definition and elementary properties . . . . .	155
11.2	Comparison to the Hausdorff dimension . . . . .	157
11.3	Comparison to the box dimension . . . . .	158
11.4	Comparison to the rate distortion dimension . . . . .	161
12	Regular sets and measures of dimension $D$ . . . . .	165
12.1	Definition and examples . . . . .	165
12.2	Asymptotics for the quantization error . . . . .	173
13	Rectifiable curves . . . . .	180
14	Self-similar sets and measures . . . . .	190
14.1	Basic notion and facts . . . . .	190

14.2	An upper bound for the quantization dimension . . . . .	192
14.3	A lower bound for the quantization dimension . . . . .	195
14.4	The quantization dimension . . . . .	199
14.5	The quantization coefficient . . . . .	203
<b>Appendix</b>	<b>Univariate distributions</b>	<b>209</b>
<b>Bibliography</b>		<b>215</b>
<b>Symbols</b>		<b>225</b>
<b>Index</b>		<b>229</b>
