Friction model of Photo-induced Reorientation of Optical Axis in Photo-oriented Langmuir-Blodgett Films — [Source link](#)

S. P. Palto, G. Durand

Institutions: University of Paris

Published on: 01 Jul 1995 - Journal De Physique II (EDP Sciences)

Topics: Angular momentum of light, Rotation, Optical polarization, Angular momentum and Molecular film

Submitted on 1 Jan 1995

HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.
