Growing up and growing old

A longitudinal study on aging in zebra finches

The research in this thesis was carried out at the Groningen Institute for Evolutionary Life Sciences (GELIFES), University of Groningen. All studies were approved by the animal welfare committee of the University of Groningen.

university of
 groningen

Growing up and growing old

A longitudinal study on aging in zebra finches

PhD thesis

to obtain the degree of PhD at the
University of Groningen
on the authority of the
Rector Magnificus Prof. E. Sterken
and in accordance with
the decision by the College of Deans.

This thesis will be defended in public on

Thursday 1 December 2016 at 09.00 hours

by

Michael Briga

born on 17 August 1981
in Roeselare, België

Supervisor

Prof. S. Verhulst

Assessment Committee

Prof. G. van Dijk

Prof. B.I. Tieleman

Prof. T. Coulson

Contents

Part I Introduction

Chapter 1	Environment, lifespan and aging: a synthesis	9
Chapter 2	What can long-lived mutants tell us about aging in natural environments?	35

Part II Population

Box A	Growing up in large broods impairs development in zebra finches	57
Chapter 3	Food availability affects adult survival trajectories depending on early developmental conditions	65
Chapter 4	Increased foraging costs impair reproduction and offspring development	97
Chapter 5	The heuristic value of redundancy models of aging	111
Chapter 6	Large diurnal temperature range increases bird sensitivity to climate change	145

Part III Individual

Chapter 7	Bill redness is positively associated with reproduction and survival in male and female zebra finches	177
Chapter 8	Stabilizing survival selection on pre-senescent expression of a sexual ornament followed by a terminal decline	195
Chapter 9	Baseline glucose increases due to adverse developmental and adult environments and shortens lifespan in zebra finches	217
Chapter 10	Individual variation in metabolic reaction norms over ambient temperature causes low correlation between basal and standard metabolic rate	237
Chapter 11	Mosaic aging of mass and metabolism in a passerine	267
	Summary and samenvatting	319
	List of authors and affiliations	323
	List of publications	325
	Acknowledgements	327
