

Errata: Growth of Clusters in a First-Order Phase Transition¹

O. Penrose,² Joel L. Lebowitz,³ J. Marro,⁴ M. H. Kalos,⁵ and A. Sur⁶

Received July 23, 1980

The attention of the reader is drawn to several misprints which may obscure the understanding of our paper:

Page 251, Eq. (13) should read

$$D = \Delta x^2 / (6\Delta t) = 1/6$$

Page 251, line 25 should read: “ $2F(0) = 1$. The estimated value for α is therefore”

Page 251, Eq. (14) should read

$$\alpha = 4\pi(1/6)(3/4\pi)^{1/3} = 1.3$$

Page 252, Eq. (19) should read

$$A = 2.415(1 - \rho)^3 \alpha w_s \approx 0.026$$

Page 263, line 9 should read: “formula for A brings up the value of A from 0.026 [as obtained in Eq. (19)]”

Page 263, line 10 should read: “to a value in the range 0.04–0.08. Unfortunately, the observed value of A ”
