

HUMAN FACTORS IN ORGANIZATIONAL DESIGN AND MANAGEMENT – VI

Proceedings of the Sixth International Symposium on
Human Factors in Organizational Design and Management
held in The Hague, The Netherlands, August 19-22, 1998

Edited by

Peter Vink

Manager Innovation &
President of the Dutch Ergonomics Society

Ernst A.P. Koningsveld, MSc

Senior Consultant/Product Innovator

Steven Dhondt, MSc

Senior Consultant/Process Innovator

NIA TNO

Polaris Avenue 151
2132 JJ HOOFFDORP
THE NETHERLANDS

1998

CONTENTS

Preface	v
Balancing Organizational, Technological and Human Factors - The Model and the Headline of this Book P. Vink, E.A.P. Koningsveld and S. Dhondt	1
Balancing Organizational, Technological and Human Factors - The Vision of Production Management P. Vink and M. Pecters	7
Balancing Organizational, Technological and Human Factors - The Vision of Experts P. Vink, E.A.P. Koningsveld and S. Dhondt	13
SECTION I - ORGANIZATIONAL DESIGN	
1.1 NETWORKS OF ORGANIZATIONS	
Comparative Analysis of Work Ethic Among German, Japanese and Russian Managers A. Zankovsky	21
Building Network Organizations - Implications for Organizational Culture and Leadership S. Immonen and E. Järvenpää	27
Towards Global Villages - Networks in Action G. Bradley and W. Bradley	33
Development of Small- and Medium-Sized Businesses in an Industrial Zone Through the Use of Quality Management Methods P. Carayon and J-L. Coujard	39
Methods and Tools in Developing Small and Medium Sized Enterprises S. Immonen and E. Järvenpää	45
On the Role of Incompetence for the Functioning of Network Systems G. Östberg	51
Inter-Organizational Management: Coordination of the Actors C. Bossuet, J. Lamothe and G. Lacoste	57
Complexity and Adaptive Organizations S. Makkonen and M. Lindholm	63
Improving Subcontracting of the Construction Industry by Participatory Cooperation T. Wegelius-Lehtonen	69
Supply Chain Management at a University of Music M. Takala and E. Järvenpää	75
Applied Sciences in France: How to Sell this Innovative Product C. Detrez	81
1.2 TEAMWORK	
The Design of Semi-Autonomous Groups: Main Steps and a Case Study R. Marx	89
How do Workers see Transition to Cell Work? A follow-up P. Seppälä and S. Klemola	95

Reciprocity of Qualitative and Quantitative Data in the Study of Teamwork in the Paper Industry	
A-M. Teperi, A. Leppänen, E. Tuominen and S. Klemola	101
Self-Managing Teams in Practice	
M. Peeters and J. Koppens	107
Team-Auditing for Controlling and Improving the Development and Establishment of Self-Directed Team Work	
G. Stawowy	111
Monitoring Quality Improvement Team Performance	
N. Arora, C. Bonnet and F. Sainfort	117
Multifunctional Teams - A Way to Deal with Conflicts?	
I. Samuelson and J. Stahre	123
Human-Oriented Manufacturing in Autonomous Production Cells	
W. Eversheim, H. Luczak, A. Haufe, S. Klöwer and C. Schlick	129
1.3 TOTAL QUALITY MANAGEMENT	
Impact of Quality Management on Job Characteristics	
F. Sainfort, C. James, Y.J. Yeh, P. Carayon, J. Lund and M.J. Smith	135
The Effects of a TQM Intervention in a Public Organization on Employees' Well-Being and Customer Satisfaction. First Results from a Longitudinal Study	
C. Korunka and D. Scharitzer	141
Implementation of Quality Management Programs in the Public Sector	
P. Carayon, J-L Coujard and F. Sainfort	147
A Macro Logical Approach on a Quality Assurance Management Activities	
R. Ebukuro	153
1.4 ORGANIZATIONAL LEARNING	
Measures to Balance the Demand for Skill in a Fast Changing Technological Business Environment and the Supply of Skill Available in the Existing Work Force	
T.B.K. Ivergård	159
Network Structure of Knowledge Intensive Organizations	
H. Korhonen	165
Work Organisational Changes in Surveying Work	
G. Gard	171
Ergonomic Modeling of Organizations: From Complexity to Simplicity	
C. Milito, A.S.E. de M. Franco, M.A. dos Santos and L. Gontijo	177
How to Improve Working Processes through Collaboration in Cross-Departmental Teams	
P. Orban and S. Völker	183
Organizational Change: From Individual Adaptation to Collective Creation	
K. Launis, A-L. Niemelä and T. Kantola	189
Quality of Working Life in Knowledge and Information Work: Implications for Information Society	
E. Järvenpää and S. Immonen	195
Creativity in an Organisational Context - A Case Study in IT Companies in Silicon Valley	
L. Bradley	201

1.5 MANAGEMENT ISSUES

Developments in Productivity Related to Organisational Design and Management A.C. Hubert	207
Real Process Leadership and Organizational Change P. Buhanist	211
What Commitment Means in Change Leadership L. Seppänen and J. Virtaharju	217
Combining the Strengths of Participative and Target-Driven Development Methods P. Kutilainen, A. Salminen and H. Lanning	223
A Participatory Redesign of an Educational Organisation: A Macroergonomics Point of View S.F.P. e Silva and L.A. Gontijo	229
Organizational Design in a Third World Context: The Case of a Volkswagen Motor Plant in Brazil O.M.S. Truzzi, A. Rachid and P.E.G. Bento	235
Production Support Personnel in Decentralized Organizations - The Perception of their Work Role M. Berglund	241
After the Dismissal of the Secretaries A.-C. Blomkvist	247
Transformations in the Family Circuit and its Reflections on Work Organization M.T. Sacramento	251

1.6 HEALTHY WORK

Estimations of Actual Availability in the Hospital M. Molan and G. Molan	257
Work Conditions and Company Strategies J. Eklund	263
Integrating Working Environment in Management Activities - A Political Process Perspective A. Kamp	269
The Impact of Work Organisation Design and Management Practices Upon Work Related Musculoskeletal Disorder Symptomology J. J. Devereux and P.W. Buckle	275
Characteristics Promoting Organizational Health in Small and Medium-Sized Companies K. Lindström, K. Schrey and S. Kaleva	281
How the Employees from a Foodservice System Perceive the Quality of Work Life A.M. Campos Santana and F.A.P. Fialho	287
Effectiveness of Work Organization Interventions in Office and Computer Work P. Carayon, M.C. Haims and H. Suh	293

1.7 MANAGEMENT OF HUMAN SETTLEMENTS

<i>Ekistic-MacroErgonomics</i> - Updates in the Application of Macro-Ergonomics to the Development and Management of Human Settlements J.J. Keenan	299
--	-----

Identifying the Organizational Subsystem of a Community in Order to Optimize Subcultural Relationships	
A. Kirwin and J. Brett	303
SECTION II - DESIGN FOR MANUFACTURING	
Anthropotechnology: The Ergonomics of the Production Systems	
N. dos Santos, A.R.A. Dutra and R.P.C. Proença	311
Organising for Product Innovation: Concurrent Engineering and Human Resource Management	
M. Schubert and P.K. Couchman	317
Advanced Analysis and Design Methodologies for Reengineering Tasks	
G. Zülch, A. Rinn and O. Strate	325
Manufacturing Planners and Schedulers: How Do They Work, How Can We Know?	
S. Crawford, C. Vernon, B. MacCarthy and J.R. Wilson	331
A New Project for the Industrial Organizations: The Impact of the Intelligent Automation	
E.P. Paladini	337
People Meeting the New Technology at Saw Mills	
A. Pulkkis	343
The Social Technology for Design High Effective Organization	
E.R. Tushkin	347
SECTION III - PRODUCT/PRODUCTION DESIGN	
PRODUCTION SYSTEM	
Planning from Inside Up: A Comprehensive Way of Dealing Both with Complexity and High Quality Standards in Office Buildings	
M. Pongratz	353
Ergonomics in Architecture	
J. Charytonowicz	357
Integrated Design According to the Concept of People, Technology and Organization	
O. Strohm	363
Human Factors in Ergonomic Design	
J. Lewandowski	369
An Attempt of Modeling the Organisation of a Work Stations with the Use of Neurone Networks	
E. Górska	375
Design of a New Assembly Line - Between Politics and Participation	
I. Posniak	381
Production Systems Design for SMEs: A Case Study	
L. Franchini, E. Caillaud and G. Lacoste	387
Initial Stages for the Explanation of Japanese Production Structures	
K.-D. Fröhner and K. Iwata-Fröhner	393
PRODUCT DESIGN	
Virtual Kansei Engineering Applied to House Designing	
M. Nagamachi, Y. Sakata and Y. Imamoto	399

A Fundamental Study on Evaluation System of Landscape for Kansei-Analysis Y. Matsubara, S. Ishihara and M. Nagamachi	405
A Study on Comfort of Bathroom Space Based on Kansei Engineering K. Nishikawa, Y. Hirasawa and M. Nagamachi	411
Kansei Designing Analysis on Basic Bridge Structure M. Ichitsubo, K. Komatsu and M. Nagamachi	417
Hierarchical Kansei Analysis of Beer Can Using Neural Networks S. Ishihara, K. Ishihara and M. Nagamachi	421
New Product Design as Grouplike Work M. Vartiainen, M. Hakonen, T. Rantamäki, A. Simola, N. Hakonen, K. Hulkko and K. Nurmela	427
Usability Activities in Product Development M. Nieminen and J. Parkkinen	433
A Macroergonomic Approach to Product Design N. Palacios and A.S. Imada	439
Application of Modern Ergonomics in Formulating Marketing Plans of Authorized Car Dealerships A.E. Jasiak	445
Organizational and Social Aspects of Integrating Working Environment Considerations into Product Development O. Broberg	451
Work Motivation and Competence in Five Product Development Teams M. Martinsuo	457
Structural Elements of a Real-World Designing Process K.-D. Fröhner, K. Nawroth and S. Rickertsen	463
SECTION IV - INFORMATION AND COMMUNICATION TECHNOLOGY	
ICT AND ORGANIZATIONAL LEARNING	
From Human Computer Interaction to a New Socio-Technical Approach: A Case Study of Office Automation Effects in a Public Administration G. Matarazzo and A. Coccione	471
Ergonomics in Information Technology as a Tool for Organization Design T.M.J. Lenior	477
Employee Attitudes Toward Various Communication Technologies When Used for Communicating About Organizational Change D. Levi and L. Rinzel	483
Effective Use and Development of Information Systems: A User-Centered Approach M.T. Kirveennummi and A.K. Tuomisto	489
Supporting Work Activities with Information Technology J.J.J. Kasvi, M. Nieminen, A. Pulkkis and M. Vartiainen	495
Distributed and Collocated Group Communication vs. Decision Systems Support A.R. Cano, J.W. Meredith and B.M. Kleiner	501
A Themescape of Content and Context of ODA M 6 - Interests, Trends, Issues and People G.R. Gallaway	507

Supporting Teamwork Development by Information Technology M. Ventä	511
Work Groups and Effective Information Systems Development A.K. Tuomisto and M.T. Kirveenummi	517
SECTION V - WORKPLACE AND MACHINE DESIGN	
HEALTH	
Checklists for the Evaluation of Computer Workplaces - Practical Requirements and Current Design Concepts D. Gude, N. Argyropoylos, M. Konhoff, B. Seidel-Fabian and W. Laurig	525
Workplace Assessment - A Tool for Developing Ergonomics in Firms? P.L. Jensen	531
What is a 'Healthy Workplace'? L.S. Robson, M.F.D. Polanyi, M.S. Kerr, H.S. Shannon, J.M. Eakin, A-S. Brooker and D.C. Cole	539
Conditions for Computer Use in Cold Environments A.-C. Blomkvist and G. Gard	545
Development of the Expert Model for Health Follow Up G. Molan and M. Molan	549
PARTICIPATION AND WORKPLACES	
Methods for Introducing Improvements at Work C. Berling, M. Blomé, C.R. Johansson, P. Odenrick and F. Rassner	555
The Workplace: Community of Learning Experiments C. Clipson and K. West	567
Practical Constraints on Employee Involvement in Workplace Redesign: Fundamental Issues and a Case Study H.M. Haines and J.R. Wilson	575
To Assure the Visual Comfort and Performance During the Workday H. Herman	579
Adopting Macroergonomic Approach for Identification of Workplace Problems and Development of Low-Cost/No-Cost Solutions in Industrially Developing Countries. Case Study: Glucosan - Iran F. Helali and H. Shahnavaz	585
Participatory Approach for Developments in Installation Work A.M. de Jong and P. Vink	591
A Participatory Ergonomics Approach to Redesign Working Methods and Tools of Glaziers I.J.M. Urlings, R.E. Bronkhorst and M.P. van der Grinten	597
The Anthropotechnological Aspects of the Management of Building Sites in Brazilian Constructions E.M. Franco, A.R.A. Dutra, R.P.C. Proença	603
SECTION VI - JOB AND TASK DESIGN	
MANAGERIAL ASPECTS	
Designing the Morphological-Time Structure of Enterprise Management Tasks A. Asherov	611

Evaluating the Congruency (Fit) of Reward Systems and Other Operating Systems in Seven Companies	
N. Hakonen, K. Hulkko, M. Hakonen, K. Nurmela, T. Rantamäki, A. Simola and M. Vartiainen	617
Satisfaction Measurement	
H. Matsunaga and H. Nakazawa	623
Task Design Based in Tayloristic Principles: Impacts in Quality and Workers Health in Banks and Credit Card Companies	
L.I. Szelwar, R. Marx and M. Zilbovicius	629
Macroergonomic Directions in Function Allocation	
B.M. Kleiner	635
Holistic Approach to Organizational Design and Management	
S.V. Kirpich and I.F. Hvorik	641
The Organisation of Work Based on Standardisation: The Question of Scripts in Call Centers	
F.L. Mascia and L.I. Szelwar	647
Enhancing Task and Information Flow in Sociotechnical Health Care Systems	
B.S. Caldwell	653
HEALTH	
Evaluation of an Assessment Tool for Measuring Psychosocial Work Factors and Health in Office/Computer Work	
P. Carayon, W. Schmitz and L. Newman	661
RSIs: Diagnosis, Design and Implementation	
N.L. Menegon, J.A. Camarotto and S.M. Matusita	667
The Work-Related Well-Being and Haste at Work	
A-L. Niemelä, K. Launis and T. Kantola	673
Work-Related Well-Being as Part of the Contextual Transformation of the Work in Banking	
T. Kantola, K. Launis and A-L. Niemelä	677
The Relation Between Experienced Workload, Working Conditions, Health and Absenteeism in Construction Industry	
P.L.T. Hoonakker, D. van Dierendonck, H.F. van der Molen and A. van Ginkel	683
Stress Reduction at the Workplace: A Participatory Approach	
F.J.N. Nijhuis, P. Janssen and A. de Jong	689
Work Stress in the Dutch Construction Industry: Causes and Consequences	
H.F. van der Molen, P.L.T. Hoonakker and J.C. van Duivenbooden	693
Work Related Stress in the Construction Industry	
J.C. van Duivenbooden, H.F. van der Molen, J.P.J. Broersen, A.J.M. Rövekamp	697
Work Stress, Strain and Measures Taken as Reported by Employers and Employees in the Construction Industry	
I.L.D. Houtman, W.E. Hoogendoorn and A.J. Zuidhof	699
SECTION VII - TRAINING AND COACHING	
ORGANIZATIONAL LEARNING	
Self-Assessment as an Approach to Organizational Learning	
K.J. Zink and W. Voß	707

Ergonomics and Learning Organizations - An Experience in Educational Sector A. Santana, M.A. dos Santos, E.M. Franco, C. Milito and L. Gontijo	713
Changes Through Common Learning in an Experimentarium L. B. Kofoed and T. Rosenørn	719
Promoting Organizational Change with the Simulation Game - A Case Study V. Ruohomäki	725
How to Build Competencies for Participative Process Development: Case SIMNET M. Pankakoski and H. Ikävalko	731
Computer Support for the Active Training E.P. Paladini	737
Long Term Effects of Feedback A. Leivo	743
Long-Term Customer Relations in a Project Company - The Role of Customer Feedback Systems M. Jakobsson and E. Järvenpää	749
Accidents and Worker's Behaviour: A Participatory Implementation of the Behaviour Management Technique R.M. Martinez	755
Balancing Organizational and Human Factors by Means of an Innovative and Process-Oriented Top-Management Development Program E. Leder	761
Fallacies and Facts in End-User Training and Support P. Reijonen	763
System for Valuation of the Operators' Professional Aging Rates A. Burov	769
ERGONOMICS AND LEARNING	
Office Ergonomics Training as a Change Agent in Organizations M.M. Robertson	775
The Process of Qualification of the Personnel in the Pharmaceutical Industry: An Ergonomics Approach R.M. Martínez, B. Agüero, Y. Cadalzo, M. Fernández and M. Rodríguez	781
Problems of Teaching Conceptual Ergonomics J. Charytonowicz	787
Ergonomic Education System in Ukraine (Project) A. Asherov and K. Ludvichek	793
AUTHOR INDEX	799
