Document status and date:

Published: 01/01/1981

Document Version:

Publisher's PDF, also known as Version of Record (includes final page, issue and volume numbers)

Please check the document version of this publication:

- A submitted manuscript is the version of the article upon submission and before peer-review. There can be important differences between the submitted version and the official published version of record. People interested in the research are advised to contact the author for the final version of the publication, or visit the DOI to the publisher's website.
- The final author version and the galley proof are versions of the publication after peer review.
- The final published version features the final layout of the paper including the volume, issue and page numbers.

PREFACE

The present bibliography list covers publications (up to 1981) on two related topics: information theoretic measures and information approach to identification. For user's convenience, the first section is divided into three parts, listing separately publications on probabilistic syntactic information measures, non-probabilistic syntactic measures and on semantic and pragmatic information measures.

This work was done during the author's stay in the Measurement and Control Group of the Eindhoven University of Technology. Thanks are due to Professor P. Eykhoff for his interest and support, the library assistance by Mrs. Henriette de Brouwer, Mr. Peter van de Ven and Mr. P.S.A. Groot for their help, and to Mrs. Barbara Cornelissen and to Miss Marjolein Verbeek for their patient and skilful typing.

Ir. I.V. Brůža has contributed greatly to the bibliographic quality of the references.

Address of the author:

Dr. M.F. Ponomarenko,
Kiev (Order of Lenin) Polytechnic Institute,
Brest-Litovsky prospekt 39,
KIEV,
USSR

1. INFORMATION MEASURES

1.1. Probabilistic Syntactic Information Measures

Aczél, J. (1964)

Zur gemeinsamen Charakterisierung der Entropien α -ter Ordnung und der Shannonschen Entropie bei nicht unbedingt vollständigen Verteilungen. Zeitschrift für Wahrscheinlichkeitstheorie und verwandte Gebiete, Vol.3, p.177-183.

Aczél, J. (1968)

Probability and information theory.

In: On different characterizations of entropies. Proc. 1st Int. Symp., Hamilton, 4-5 April 1968. Ed. by M. Behara et al.

Berlin: Springer, 1969.

Lecture Notes in Mathematics, Vol.89, p.1-11.

Aczél, J. (1977)

Some recent results on characterization of measures of information related to coding.

In: Abstracts 1977 IEEE Int. Symp. on Information Theory; Ithaca, N.Y. 10-14 October 1977. New York: IEEE, p.77.

Aczél, J. (1978)

Some recent results on characterization of measures of information related to coding.

IEEE Trans. Inf. Theory, Vol.IT-24, p.592-595.

Aczél, J. and Z. Daróczy (1963)

Charakterisierung der Entropien positiver Ordnung und der Shannonschen Entropie. Acta Math. Acad. Sci. Hungary, Vol.14, p.95-121.

Aczél, J. and Z. Daróczy (1975)

On measures of information and their characterizations.

New York: Academic Press.

Mathematics in Science and Engineering, Vol.115.

Aczél, J. and J. Pfanzagl (1966)

Remarks on the measurement of subjective probability and information. Metrika, Vol.11, p.91-105.

Aggarwal, N.L. (1973)

Sur l'information de Fisher.

In: Théories de l'information. Actes des Rencontres de Marseille-Luminy, 5 au 7 juin 1973. Ed. by J. Kampé de Fériet and C.F. Picard.

Berlin: Springer, 1974.

Lecture Notes in Mathematics, Vol.398, p.111-117.

Aggarwal, N.L. and C.F. Picard (1978)

Functional equations and information measures with preference.

Kybernetika, Vol.14, p.174-181.

Arimoto, S. (1975)

Information measures and capacity of order α for discrete memoryless channels.

In: Topics in information theory. Proc. 2nd Colloquium on Information Theory; Keszthely, Hungary, 25-28 August 1975.

Ed. by I. Csiszár and P. Elias.

Amsterdam: North-Holland, 1977.

Colloquia Mathematica Societatis János Bolyai, Vol.16, p.41-52.

Barret, T.W. (1976 a)

Information measurement. I. On maximum entropy conditions applied to elementary signals.

Acustica, Vol.35, p.80-85.

Barret, T.W. (1976 b)

Information measurement. II. On minimum conditions of energy order applied to elementary signals.
Acustica, Vol.36, p.282-286.

Bhattacharyya, A. (1946-47)

On some analogues of the amount of information and their use in statistical estimation.
Sankhya, Vol.8, p.1-14, 201-218.

Behara, M. and P. Nath (1973)

Additive and non-additive entropies of finite measurable partitions.
In: Probability and information theory II. Ed. by M. Behara et al.
Berlin: Springer.
Lecture Notes in Mathematics, Vol.296, p.102-138.

Boekee, D.E. (1975)

An extension of the Fisher information measure.
In: Topics in information theory. Proc. 2nd Colloquium on Information Theory; Keszthely, Hungary, 25-29 August 1975.
Ed. by I. Csiszár and P. Elias.
Amsterdam: North-Holland, 1977.
Colloquia Mathematica Societatis János Bolyai, Vol.16, p.113-123.

Boekee, D.E. (1976)

On the notion of entropy metrics.
In: Abstracts 1976 Int. Symp. on Information Theory; Ronneby, Sweden, 21-24 June 1976.
New York: IEEE, p.36.

Boekee, D.E. (1977)

A generalization of the Fisher information measure.
Ph.D. Thesis. Delft University of Technology, Netherlands.
Delft University Press.

Boekee, D.E. and J.C.A. van der Lubbe (1980)

The R-norm information measure.
Inf. & Control, Vol.45, p.136-155.

Bozic, S.M. (1980)

A simple approach to decision and information theory.
Electron, Eng., Vol.52, No.643, October 1980, p.91,93,95,99,101.

Brillouin, L. (1962)

Science and information theory. 2nd ed.
New York: Academic Press.

Csiszár, I. (1974)

Information measures: a critical survey.
In: Trans. 7th Prague Conf. on Information Theory, Statistical Decisions Functions, Random Processes and the European Meeting of Statisticians; Prague, 18-23 August 1974. Vol.B.
Dordrecht: Reidel, 1978, p.73-86.

Daróczy, Z. (1970)

Generalized information functions.
Inf. & Control, Vol.16, p.36-51.

Daróczy, Z. (1963)

Über die gemeinsame Charakterisierung der zu den nicht vollständigen Verteilungen gehörigen Entropien von Shannon und von Rényi.
Zeitschrift für Wahrscheinlichkeitstheorie und verwandte Gebiete, Vol.1, p.381-388.

IEEE Trans. Syst., Man & Cybern., Vol.SMC-6, p.434-439.

Evans, F.J. (1977)

The informational content of system structure - a survey and some open problems.

In : Information and Systems. Proc. IFAC Workshop, Compiègne, France, 25-27 October 1977.

Ed. by B. Dubuisson.
Oxford: Pergamon, 1978, p.51-64.

Fishburn, P.C. (1966)

On the prospects of a unified theory of value for engineering.
IEEE Trans. Syst. Sci. & Cybern., Vol.SSC-2, p.27-35.

Gottinger, H.W. (1973)

Qualitative information and comparative informativeness.
Kybernetik, Vol.13, p.81-94.

Gottinger, H.W. (1975)

Lecture notes on concepts and measures of information.

In: Information Theory: New trends and open problems.

Ed. by G. Longo.

Wien: Springer.

International Centre for Mechanical Sciences: Courses and Lectures,

Vol.219, p.1-44.

Le Guyader, H., Cl. Vallet, Th. Moulin, L. Lafrenière and H. Apter (1977)

Arithmetical relators and virtual information.

In: Information and Systems. Proc. IFAC Workshop, Compiègne, France,
25-27 October 1977.

Ed. by B. Dubuisson.

Oxford: Pergamon, 1978, p.119-129.

Harrah, D. (1963)

Communication: A logical model.

Cambridge, Mass.: M.I.T. Press.

M.I.T. Research Monograph, Vol.15.

Hintikka, J. (1970)

On semantic information.

In: Information and Inference.

Ed. by K.J.J. Hintikka and P. Suppes.

Dordrecht, Reidel.

Synthese Library, p.3-27.

Hintikka, J. (1967)

The varieties of information and scientific explanation.

In: Logic, Methodology and Philosophy of Science III.

Proc. 3rd Int. Congress; Amsterdam, 25 Aug. - 2 Sept. 1967.

Ed. by B. van Rootselaar and J.F. Staal.

Amsterdam: North-Holland, 1968.

Studies in Logic and the Foundations of Mathematics; p.311-331.

Howard, R.A. (1966)

Information value theory.

IEEE Trans. Syst. Sci. & Cybern., Vol.SSC-2, p.22-26.

Hurley, W.V. (1965)

A mathematical theory of the value of information.

Int. J. Comput. Math., Vol.1, p.97-146.

Jumarie, G. (1978)

Some technical applications of relativistic information, Shannon information, fuzzy sets, linguistics, relativistic sets and communication (1).

Cybernetica, Vol.21, p.93-123.

Jumarie, G. (1973)

Towards a new approach to self-organizing systems.

Int. J. Syst. Sci., Vol.4, p.707-726.

Jumarie, G. (1974)

Structural entropy, informational potential, information balance and evolution in self-organizing systems.

Int. J. Syst. Sci., Vol.5, p.953-972.

Jumarie, G. (1975 a)

Further advances on the general thermodynamics of open systems via information theory: effective entropy, negative information.

Int. J. Syst. Sci., Vol.6, p.249-268.

Jumarie, G. (1975 b)

A relativistic information theory model for general systems.
Lorentz transformation of organizability and structural entropy.
Int. J. Syst. Sci., Vol.6, p.865-886.

Jumarie, G. (1976 a)

New results in relativistic information theory: Application to deterministic, stochastic and biological systems.
Int. J. Syst. Sci., Vol.7, p.393-414.

Jumarie, G. (1976 b)

A relativistic information approach to the structural dynamics of general systems. Morphogenesis.
Cybernetica, Vol.19, p.273-304.

Jumarie, G. (1976 c)

A relativistic information theoretic approach to identification and system parameter estimation.
In : Proc. 4th IFAC Symp. on Identification and System Parameter Estimation; Tbilisi, 21-27 September 1976.
Ed. by N.S. Rajbman.
Amsterdam: North-Holland, 1978, p.1305-1314.

Jumarie, G. (1977)

A survey of relativistic information and its applications.
In: Information and Systems. Proc. IFAC Workshop, Compiègne, France, 25-27 October 1977.
Ed. by B. Dubuisson.
Oxford: Pergamon, 1978, p.113-118

Kampé de Fériet, J. (1973)

La théorie généralisée de l'information et la mesure subjective de l'information.
In: Théories de l'information. Actes des Rencontres de Marseille-Luminy, 5 au 7 juin 1973.
Ed. by J. Kampé de Fériet and C.F. Picard.
Berlin: Springer, 1974.
Lecture Notes in Mathematics, Vol.398, p.1-35.

Kharkevits, A.A. (1960)

On the value of information.
Problems of Cybernetics, Vol.4, 1962, p.1193-1198.
(Transl. of "Problemy Kibernetiki", Vol.4, 1960, p.53-58.)

Kulikowski, J.L. (1971)

Notes on the value of information transmitted through a communication channel.
In: Proc. 2nd Int. Symp. on Information Theory; Tsahkadsor, Armenia, 2-8 September 1971.
Ed. by B.N. Petrov and F. Csáki.
Budapest: Akadémiai Kiadó, 1973, p.61-71.

MacKay, D.M (1969)

Information, mechanism and meaning.

2. APPLICATIONS OF INFORMATION MEASURES TO IDENTIFICATION

Abe, K and H. Takeda (1973)

Finite parameter estimation problems under incomplete information on stochastic matrices.

Electron. & Commun. Japan, Vol.56-A, No.8, p.11-17.

Akaike, H. (1972)

Use of an information theoretic quantity for statistical model identification.

In: Proc. 5th Hawaii Int. Conf. on System Sciences; Honolulu, 11-13 January 1972. Ed. by A. Lew.

North Hollywood, Calif.: Western Periodicals, p.249-250.

Akaike, H. (1973)

Information theory and an extension of the maximum likelihood principles.

In: Proc. 2nd Int. Symp. on Information Theory; Tsahkadsor, Armenia, 2-8 September 1971.

Ed. by B.N. Petrov and F. Csáki.

Budapest: Akadémiai Kiadó, p.267-281.

Akaike, H. (1976 a)

Canonical correlation analysis of time series and the use of information criterion.

In: System identification: Advances and case studies.

Ed. by R.K. Mehra and D.G. Lainiotis.

New York: Academic Press, 1976.

Mathematics in Science and Engineering, Vol.126, p.27-96.

Akaike, H. (1976 b)

On entropy maximization principle.

In: Applications of Statistics. Proc. Symp.; Dayton, 14-18 June 1976.

Ed. by P.R. Krishnaiah.

Amsterdam: North-Holland, 1977. p.27-41.

Akaike, H. (1981)

Modern development of statistical methods.

In: Trends and Progress in System Identification.

Ed. by P. Eykhoff.

Oxford: Pergamon.

IFAC Series for Graduates, Research Workers & Practising Engineers,

Vol.1, p.169-184.

Alam, M.A. and A.P. Sage (1975)

Sequential estimation and identification of reflection coefficients by minimax entropy inverse filtering.

Comput. & Electr. Eng., Vol.2, p.315-338.

Aleksandrovskaya, L.N. and A.S. Golubkov (1973)

Informational estimation of stationarity in measurement data processing problems (Russian).

Izv. VUZ Priborostr., No.1, p.18-21.

Arimoto, S. (1971)

Information-theoretical considerations on estimation problems.

Inf. & Control, Vol.19, p.181-194.

Arimoto, S. and H. Kimura (1971)

Optimum input test signals for system identification - an information-theoretical approach.

Int. J. Syst. Sci., Vol.1, p.279-290.

Åström, K.J. (1967)

On the achievable accuracy in identification problems.
In: Preprints 1st IFAC Symp. on Identification; Prague, 1967.
Prague: Academia. Paper 1.8.

Baram, Y. and N.R. Sandell Jr. (1977)

An information theoretical approach to dynamical systems modeling and identification.
In: Proc. 1977 IEEE Conf. on Decision & Control. Including the 16th Symp. on Adaptive Processes and a Special Symp. on Fuzzy Set Theory and Applications; New Orleans, 7-9 December 1977.
New York: IEEE. p.1113-1118.

Barankin, E.W. (1949)

Locally best unbiased estimates.
Ann. Math. Stat., Vol.20, p.477-501.

Barnes, J.L. (1968)

Information theoretic aspects of feedback control systems.
Automatica, Vol.4, p.165-185.

Ben-Bassat, M. (1978)

f-entropies, probability of error, and feature selection.
Inf. & Control, Vol.39, p.227-242.

Ben-Bassat, M. and J. Raviv (1978)

Rényi's entropy and the probability of error.
IEEE Trans. Inf. Theory, Vol.IT-24, p.324-331.

Boekee, D.E. (1977)

Generalized Fisher information with application to estimation problems.
In: Information and Systems. Proc. IFAC Workshop, Compiègne, France, 25-27 October 1977.
Ed. by B. Dubuisson.
Oxford: Pergamon, 1978. p.75-82.

Boekee, D.E. (1976)

Maximum information in continuous systems with constraints.
In: Proc. 8th Congress on Cybernetics; Namur, 6-11 September 1976.
Namur: Association Internationale de Cybernétique, 1977. p.243-259.

Broekstra, G. (1978)

On the representation and identification of structure systems.
Int. J. Syst. Sci., Vol.9, p.1271-1293.

Carnap, R. (1952)

The continuum of inductive methods.
Chicago: University of Chicago Press.
Probability and induction, Vol.2.

Chen, C.H. (1976)

On information and distance measures, error bounds and feature selection.
Inf. Sciences, Vol.10, p.159-173.

Chernyak, V.S. (1971)

Use of Fisher's information matrix in the analysis of potential accuracy of maximum likelihood estimates in the presence of interfering parameters.
Radio Eng. & Electron. Phys., Vol.16, p.951-960.
(Transl. of "Radiotekh. & Elektron.")

Chu, J.T. and J.C. Chueh (1966)

Inequalities between information measures and error probability.
J. Franklin Inst., Vol.282, p.121-125.

Comyn, G. (1977)

Generalized information and data analysis.
In: Information and Systems. Proc. IFAC Workshop, Compiègne, France,
25-27 October 1977.
Ed. by B. Dubuisson.
Oxford: Pergamon, 1978. p.29-33.

Conant, R.C. (1980)

Structural modelling using a simple information measure.
Int. J. Syst. Sci., Vol.11, p.721-730.

Davies, E.B. (1978)

Information and quantum measurement.
IEEE Trans. Inf. Theory, Vol.IT-24, p.596-599.

Dayantis, J. (1973)

Essai de quantification de l'information obtenue lors de mesures à un
appareil de mesure.
J. Chim. Phys., Vol.70, p.865-872.

Devijver, P.A. (1977)

Entropies of degree β and lower bounds for the average error rate.
Inf. & Control, Vol.34, p.222-226.

Devijver, P.A. (1973)

Information measure in identification and parameter estimation.
In: Identification and System Parameter Estimation. Proc. 3rd IFAC Symp.;
The Hague/Delft, 12-15 June 1973.
Ed. by P. Eykhoff.
Amsterdam: North-Holland, p.631-638.

Devijver, P.A. (1974 a)

Entropie quadratique et reconnaissance des formes.
In: Computer Oriented Learning Processes. Proc. NATO Advanced Study
Institute; Château de Bonas, Gers, France, 26 Aug.- 5 Sept. 1974.
Ed. by J.C. Simon.
Leyden: Noordhoff, 1976.
NATO Advanced Study Institutes Series. Series E: Applied Science,
Vol.14, p.257-278.

Devijver, P.A. (1974 b)

On a new class of bounds on Bayes risk, in multihypothesis pattern
recognition.
IEEE Trans. Comput., Vol.C-23, p.70-80.

Dixon, L.C.W. (1976)

Cramér-Rao bounds and the choice of model and parameters in system
identification.
In: Identification and System Parameter Estimation. Proc. 4th IFAC Symp.;
Tbilisi, 21-27 September 1976.
Ed. by N.S. Rajbman.
Amsterdam, North-Holland, 1978. p.451-460.

Donath, M., B.E. Boyle and W.C. Flower (1980)

An information theory approach to the identification of significant
diagnostic measurements.
In: Proc. 1980 Joint Automatic Control Conf.; San Francisco, 13-15 August
1980. Vol.1.
New York: IEEE. Paper WA6-D (9 pages).

Dowson, D.C. and A. Wragg (1973)

Maximum-entropy distribution having prescribed first and second moments.
IEEE Trans. Inf. Theory, Vol.IT-19, p.689-696.

Enta, Yu. (1978)

A measure for the discriminative effect of information.

In: Proc. 1978 Joint Automatic Control Conf.; Philadelphia, 15-20 October 1978. Vol.3.

Pittsburgh, Pa.: Instrument Society of America. p.69-80.

Eykhoff, P. (1980)

System identification: approach to a coherent picture through template functions.

Electron. Lett., Vol.16, p.502-504.

Eykhoff, P., A.J.W. van den Boom and A.A. van Rede (1981)

System identification methods: - unification and information - development using template functions.

In: Control Science and Technology for the Progress of Society. Preprints 8th IFAC World Congress; Kyoto, 24-28 August 1981. Vol.6, p.83-88.

Farag, R.F.H. (1978)

An information theoretic approach to image partitioning.

IEEE Trans. Syst., Man & Cybern., Vol.SMC-8, p.829-833.

Fleishman, B.S. and G.B. Linkovsky (1958)

Estimation of the maximum possible value of entropy of unknown distribution represented by several theoretical moments (Russian).

Trudy Nauchno-Techn. Obshch. Radiotechn. i Elektrosvyazi im A.S. Popova, No.2, p.87.

Forte, B. (1968)

On the amount of information given by an experiment.

In: Proc. Colloquium on Information Theory; Debrecen, 19-24 September 1967.

Ed. by A. Rényi. Vol.1.

Budapest: János Bolyai Mathematical Society. p.149-166.

Gaines, B.R. (1977)

System identification, approximation and complexity.

Int. J. Gen. Syst., Vol.3, p.145-174.

Gart, J.J. (1959)

An extension of the Gramér-Rao inequality.

Ann. Math. Stat., Vol.30, p.367-380.

Good, I.J. (1963)

Maximum entropy for hypothesis formulation, especially for multi-dimensional contingency tables.

Ann. Math. Stat., Vol.34, p.911-934.

Gray, R.M. (1976)

The maximum mutual information between two random processes.

In: Abstracts 1976 Int. Symp. on Information Theory; Ronneby, Sweden, 21-24 June 1976.

New York: IEEE. p.37.

Hamdan, M.A. and C.P. Tsokos (1971)

An information measure of association in contingency tables.

Inf. & Control, Vol.19, p.174-179.

Hilpinen, R. (1970)

On the information provided by observations.

In: Information and Inference.

Ed. by K.J.J. Hintikka and P. Suppes.

Dordrecht: Reidel.

Synthese Library. p.97-122.

Hogarth, R.M. (1975)

Cognitive processes and the assessment of subjective probability distributions.

J. Amer. Stat. Assoc., Vol.70, p.271-294.

Ibragimov, I.A. and R.Z. Has'minsky (1971)

On the information in a sample about a parameter.

In: Proc. 2nd Int. Symp. on Information Theory; Tsahkadsor, Armenia, 2-8 September 1971.

Ed. by B.N. Petrov and F. Csáki.

Budapest: Akadémiai Kiadó, 1973. p.295-309.

Ihara, J. (1980)

A structural analysis of criteria for selecting model variables.

IEEE Trans. Syst., Man & Cybern., Vol.SMC, p.460-466.

Ishii, N. and N. Suzumura (1975)

On the estimation of the order of Markov process from the random data of time series (Japanese).

Bull. Nagoya Inst. Technol. (Japan), 1975, No.27, p.445-453.

Ishii, N. and N. Suzumura (1977 a)

On estimation of the order of the autoregressive process.

Electron. & Commun. Japan, Vol.60-A, No.6, p.1-8.

Ishii, N. and N. Suzumura (1976 b)

Estimation of the order of autoregressive process.

Int. J. Syst. Sci., Vol.8, p.905-913.

Jansen, J. and J.F. Barrett (1979)

An extension of Kullback-Leibler information measure to linear structural relations.

In: Identification and System Parameter Estimation. Proc. 5th IFAC Symp.; Darmstadt, 24-28 September 1979.

Ed. by R. Isermann.

Oxford: Pergamon, 1980. p.539-548.

Jaynes, E.T. (1957 a)

Information theory and statistical mechanics.

Phys. Rev., Vol.106, 1957, p.620-630.

Jaynes, E.T. (1957 b)

Information theory and statistical mechanics II.

Phys. Rev., Vol.108, 1957, p.171-190.

Jaynes, E.T. (1962)

Information theory and statistical mechanics.

In: Brandeis University Summer Institute Lectures in Theoretical Physics, 1962. Vol.3: Statistical Physics.

Ed. by K.W. Ford. New York: Benjamin, 1963, p.181-218.

Jaynes, E.T. (1968)

Prior probabilities.

IEEE Trans. Syst. Sci. & Cybern., Vol.SSC-4, p.227-241.

Kagan, A.M. (1978)

On the problem of the optimal detection of a constant signal in the presence of additive noise.

In: Proc. 2nd Int. Symp. on Information Theory; Tsahkadsor, Armenia, 2-8 September 1971.

Ed. by B.N. Petrov and F. Csáki.

Budapest: Akadémiai Kiadó, 1973. p.311-315.

Risk estimates in terms of generalized f-entropies.
In: Proc. Colloquium on Information Theory; Debrecen, 19-24 September 1967.
Ed. by A. Rényi. Vol.2.
Budapest: János Bolyai Mathematical Society, 1968. p.299-315.

Pinsker, M.S. (1972)

The information content of observations, and asymptotically sufficient statistics.

Probl. Inf. Transm., Vol.8, p.33-46.

(Transl. of "Probl. Peredachi Inf.")

Provencher, S.W. and R.H. Vogel (1980)

Information loss with transform methods in system identification: a new set of transforms with high information content.

Math. Biosci., Vol.50, p.251-262.

Rajbman, N.S. and V.M. Chadeev (1975)

Identification of industrial processes: The application of computers in research and production control.

Amsterdam: North-Holland, 1980.

(Russian ed.: Energiya, Moscow, 1975.)

Rajbman, N.S., M.I. Shpunt, F.A. Ovsepian and I.S. Durgarian (1971)

Informational measure of certainty and its use in the identification of plants.

J. Optimiz. Theory & Appl., Vol.8, p.212-227.

Rao, C.R. (1945)

Information and the accuracy attainable in the estimation of statistical parameters.

Bull. Calcutta Math. Soc., Vol.37, p.81-91.

Rényi, A. (1968)

On some problems of statistics from the point of view of information theory.

In: Proc. Colloquium on Information Theory; Debrecen, Hungary, 19-24 September 1967.

Ed. by A. Rényi. Vol.2.

Budapest: János Bolyai Mathematical Society. p.343-357.

Rényi, A. (1965)

On some basic problems of statistics from the point of view of information theory.

In: Proc. 5th Berkeley Symp. on Mathematical Statistics and Probability; Berkeley, 21 June - 18 July 1965 and 27 Dec.1965 - 7 Jan.1966.

Vol.1: Statistics.

Ed. by L.M. Le Cam and J. Neyman.

Berkeley-Los Angeles: University of California Press, 1967. p.531-543.

Rife, D.C., M. Goldstein and R.R. Boorstyn (1975)

A unification of Cramér-Rao type bounds.

IEEE Trans. Inf. Theory, Vol.IT-21, p.330-332.

Rissanen, J. (1976 a)

Minimax entropy estimation of models for vector processes.

In: System Identification: Advances and case studies.

Ed. by R.K. Mehra and D.G. Lainiotis.

New York: Academic Press.

Mathematics in Science and Engineering, Vol.126, p.97-119.

Rissanen, J. (1976 b)

Parameter estimation by shortest description of data.

In: Proc. 16th Joint Automatic Control Conf.; West Lafayette, 27-30 July 1976.

New York: American Society of Mechanical Engineers, 1976. p.593-597.

Information matrix and local identifiability of parameters.
In: Proc. 14th Joint Automatic Control Conf.; Columbus, 20-22 June 1973.
New York: IEEE. p.611-619.

Tsuji, S. and S. Tanaka (1974)

Estimation of unknown function based on information theory.

Electr. Eng. Japan, Vol.94, No.3, p.117-124.

(Transl. of "Denki Gakkai Ronbunshi", Vol.94C, No.5, p.97-104.)

Tzannes, N.S. and T. Avergis (1978)

A new approach to the estimation of continuous spectra.

In: Current Topics in Cybernetics and Systems. Proc. 4th Int. Congress of Cybernetics & Systems; Amsterdam, 21-25 August 1978.

Ed. by J. Rose.

Berlin: Springer, p.351-352.

Vaganov, A.M. and G.G. Kosenko (1971)

A method of estimation of lower error bounds and entropy of recognition of two objects.

Radio Eng. & Electron. Phys., Vol.16, p.1749-1751.

(Transl. of "Radiotekh. & Elektron.")

Vajda, I. (1967)

On the convergence of information contained in a sequence of observations.

In: Proc. Colloquium on Information Theory; Debrecen, Hungary, 19-24 September 1967.

Ed. by A. Rényi. Vol.2.

Budapest: János Bolyai Mathematical Society, 1968. p.489-501.

Vajda, I. (1968)

A contribution to the informational analysis of pattern.

In: Methodologies of Pattern Recognition. Proc. Int. Conf.; Honolulu, 24-26 January 1968.

Ed. by S. Watanabe.

New York: Academic Press, 1969. p.509-519.

Vajda, I. (1971)

χ^2 -divergence and generalized Fisher information.

In: Trans. 6th Prague Conf. on Information Theory, Statistical Decision Functions, Random Processes; Prague, 19-25 September 1971.

Prague: Academia, 1973. p.873-886.

Van den Bos, A. (1971)

Alternative interpretation of maximum entropy spectral analysis.

IEEE Trans. Inf. Theory, Vol.IT-17, p.493-494.

Van der Lubbe, J.C.A. (1975)

On the maximization of information for continuous distributions which satisfy some constraints (Dutch)(Thesis).

Information Theory Group, Department of Electrical Engineering, Delft University of Technology, Netherlands.

Van Meurs, J. and J.H.C. Lisman (1961)

Meest aannemelijke verdelingen.

Statistica Neerlandica, Vol.15, p.147-151.

Van Trees, H.L. (1968)

Detection, estimation, and modulation theory.

New York: Wiley.

Part 1: Detection, estimation, and linear modulation theory. 1968.

Part 2: Nonlinear modulation theory. 1971.

Part 3: Radar-Sonar signal processing and Gaussian signals in noise. 1971.

Vaurio, J.K. (1972)

Information and estimation in nuclear measurements.

Nucl. Instrum. & Methods, Vol.99, p.373-378.

Vincze, I. (1967)

On the information-theoretical foundation of mathematical statistics.
In: Proc. Colloquium on Information Theory; Debrecen, Hungary,
19-24 September 1967.

Ed. by A. Rényi. Vol.2.

Budapest: János Bolyai Mathematical Society, 1968. p.503-509.

Watanabe, S. (1969)

Knowing and guessing; A quantitative study of inference and information.
New York: Wiley.

Watanabe, S. (1960)

Information theoretical analysis of multivariate correlation.
IBM J. Res. & Dev., Vol.4, p.66-82.

Weidemann, H.L. (1969)

Entropy analysis of feedback control systems.

In: Advances in Control Systems. Vol.7.

Ed. by C.T. Leondes.

New York: Academic Press. p.225-255.

Weidemann, H.L. and E.B. Stear (1970)

Entropy analysis of estimating systems.

IEEE Trans. Inf. Theory, Vol.IT-16, p.264-270.

Whittemore, B.J. and M.C. Yovits (1974)

The quantification and analysis of information used in decision processes.
Inf. Sciences, Vol.7, p.171-184.

Wong, A.K.C. and M.A. Vogel (1977)

Resolution-dependent information measures for image analysis.

IEEE Trans. Syst., Man & Cybern., Vol.SMC-7, p.49-61.

Wragg, A. and D.C. Dowson (1970)

Fitting continuous probability density functions over $(0, \infty)$ using
information theory ideas.

IEEE Trans. Inf. Theory, Vol.IT-16, p.226-230.

Zaborszky, J. (1966)

An information theory viewpoint for the general identification problem.

IEEE Trans. Autom. Control, Vol.AC-11, p.130-131.
