# Workshop in Methods

An Introduction to SAS

JangDong Seo

Statistical Consultant
Indiana Statistical Consulting Center

SAS is the de facto standard in industries for data management and statistical computing. This workshop will touch the base of SAS and mostly statistical analyses, such as ANOVA, Regression, etc. The topics will include:

- General understanding of SAS
- Writing SAS programs
- Reading data from external files
- Data management
- Descriptive statistics
- Statistical analyses
- Advanced SAS programming

This workshop is part 2 of our SAS workshop series for Fall 2016. Join us for part 1, "SAS: The Basics" with IT Training, on Thursday, September 9, 2016, 5:30-8:30pm. Reserve your spot for Part 1 by registering at ittraining.iu.edu!

Friday, September 16, 2016, 2-4:30pm
Social Science Research Commons Grand Hall, Woodburn Hall 200
