

PROCEEDINGS OF THE SECOND INTERNATIONAL SYMPOSIUM ON INVERSE
PROBLEMS – ISIP '94 / PARIS / FRANCE / 2-4 NOVEMBER 1994

Inverse Problems in Engineering Mechanics

Edited by

H. D. BUI

LMS, École Polytechnique, Palaiseau, France

M. TANAKA

Faculty of Engineering, Shinshu University, Nagano, Japan

M. BONNET & H. MAIGRE

LMS, École Polytechnique, Palaiseau, France

E. LUZZATO

EDF/DER/AMV, Clamart, France

M. REYNIER

LMT, ENS, Cachan, France

A. A. BALKEMA / ROTTERDAM / BROOKFIELD / 1994

Table of contents

RR 4647(z)

Shape determination

Inverse method for the Euler's equations in turbomachines <i>D. Buisine & J.P. Depriester</i>	3
An implicit method for three-dimensional inverse extrusion problems of viscoelastic fluids <i>F. Debae & V. Legat</i>	9
Inverse problems and design in heat conduction <i>G.S. Dulikravich & T.J. Martin</i>	13
The inverse problem of design in forging <i>L. Fourment & J.L. Chenot</i>	21
Upwind finite element analysis of the inverse problem for groundwater resources <i>M. Kanoh & T. Kuroki</i>	29
The two dimensional inverse acoustic scattering for shape identification <i>H. Kawabe</i>	33
3D reconstruction: A challenge in non destructive testing <i>B. Lavayssière, E. Fleuet & B. Georgel</i>	41
Isotherm shape identification for a two dimension heat conduction problem <i>S. Péneau, Y. Jarny & A. Sarda</i>	47
Neural inversions for ocean acoustic tomography <i>Y. Stéphan & S. Thiria</i>	55
On the design of solidification processes in the presence of natural convection <i>N. Zabaras</i>	61

Material properties

Estimation of material constants from impact tests <i>P. Berzi, T. Szabó & J. Forss</i>	71
Identification and inverse problems related to material behaviour <i>G. Cailletaud & P. Pilvin</i>	79

About a few inverse problems related to the experimental characterization of anisotropic materials <i>B.Castagnède</i>	87
Optimal identification of viscoelastic properties of vibrating sandwich beams <i>V.Chaika, T.Lekszycki & J.J.Pedersen</i>	95
Spectral properties and identification of elastic moduli <i>A.Constantinescu</i>	103
Estimation of elastic moduli in thick composite plates by inversion of vibrational data <i>P.S.Frederiksen</i>	111
Reconstruction algorithms for hydraulic tomography <i>J.Gottlieb</i>	119
Computer aided rheology for non linear large strain thermo-viscoplastic behaviour formulated as an inverse problem <i>A.Gavrus, E.Massoni & J.L.Chenot</i>	123
Measure of the in-plane shear modulus of composites from heterogeneous kinematic fields <i>M.Grédias, F.Pierron, Y.Surrel & A.Vautrin</i>	131
Gradient-based methods for parameter identification of viscoplastic materials <i>R.Mahnken & E.Stein</i>	137
Identification of parameters of groundwater flow model by using extended Kalman filter-FE <i>A.Murakami, T.Hasegawa & T.Hamaguchi</i>	145
Identification of a kinetic model for anisothermal metallurgical transformations in steels <i>D.Pont, J.M.Bergheau, M.Rochette & R.Fortunier</i>	151
An inverse approach for identification of dynamic constitutive equations <i>L.Rota</i>	157
Inverse boundary and scattering problems for an elastic medium <i>G.Uhlmann & G.Nakamura</i>	165
Parameter identification for a lattice model for concrete fracture <i>J.G.M.van Mier & A.Vervuurt</i>	169
 <i>Experimental strategy</i>	
Inverse analysis for improving accuracy of SVET in corrosion study <i>S.Aoki, K.Amaya & M.Hayase</i>	179
Determination of the sensor locations for 2D inverse heat conduction problems <i>G.Blanc, M.Raynaud & T.H.Chau</i>	185
Redundant data, future times and sensor location in the inverse heat conduction problem: A case study <i>K.A.Woodbury & S.K.Thakur</i>	193

System determination

- Non linear gaussian inversion to improve parameter estimation in vibroacoustic modelling 203
A.Adobes
- Acceptable element matrices for finite element model updating 209
H.Ahmadian, F.Ismail & G.M.L.Gladwell
- Updating of finite element models through nonlinear parametric estimation 215
E.Antonacci, D.Capecchi & F.Vestroni
- Updating linear elastic models with modal selective sensitivity 223
S.Cogan, G.Lallement, F.Ayer & Y.Ben-Haim
- Updating a finite element model of a nuclear power station cooling tower 229
L.Billet
- Structural parameter identification using nonlinear Gaussian inversion 235
M.Bonnet & J.Ben Abdallah
- A practical inverse problem from robotics: Identification of dynamic parameters 243
M.Gautier & W.Khalil
- Error on the constitutive relation in dynamics: Theory and application for model updating 251
P.Ladevèze, M.Reynier & N.M.Maia
- The inverse sensitivity method for parametric corrections of mechanical models with repeated eigenvalues 257
L.Pešek

Boundary condition and source identification

- Estimation of mobilities and capillary pressure from centrifuge experiments 265
G.Chavent, Jianfeng Zhang & C.Chardaire-Rivière
- Identification of boundary conditions by inversion and condensation 273
S.Frikha, G.Coffignal, J.-L.Trolle & E.Vatin
- Inverse dynamics for predicting muscle forces during gait 281
V.Kromer, C.Auburtin & M.Gueury
- Adjoint boundary integral method applied to the determination of concentrated forces acting in a body 289
S.Kubo & K.Ohji
- Determination of cooling temperature history in injection molding 295
T.Matsumoto, M.Tanaka & N.Takahashi
- Inverse transient diffusion by boundary elements 301
R.Pasquetti & D.Petit
- Acoustic time reversal and inverse scattering 309
C.Prada, J.L.Thomas, P.Roux & M.Fink

On stochastic identification of boundary and initial conditions for parabolic, hyperbolic and parabolic-hyperbolic equations <i>C.Rymarz</i>	317
Solution of the inverse heat conduction problems applying eigenvalue technique <i>J.Skorek</i>	325
Boundary element simulation for active control of bending vibration of elastic beams <i>M.Tanaka, T.Matsumoto & L.Huang</i>	331
 <i>Defect identification</i>	
Determination of planar cracks by external measurements via reciprocity gap functionals: Identifiability results and direct location methods <i>S.Andrieux & A. Ben Abda</i>	341
Interface resistances: The inverse problem for the transient thermal technique <i>A. Bendada, J.C. Batsale, A. Degiovanni & D. Maillet</i>	347
Path-independent and boundary integral approach to sensitivity analysis and identifications of cracks <i>T. Burczyński & E. Z. Polch</i>	355
Determination of local void fraction in a two phase flow by gamma densitometry <i>Ph. Fauquet, A. Souyri, G. Joly-Blanchard & J.P.Yvon</i>	363
Progress in linear inverse scattering imaging: NDE application of Ultrasonic Reflection Tomography <i>J.P.Lefebvre</i>	371
Application of genetic algorithm to plural defects identification <i>M.Tanaka & M.Nakamura</i>	377
Phase superposition processing – A new imaging method for nondestructive testing <i>L.Tao, X.R.Ma, Z.X.Guo & C.X.Shao</i>	383
Defect identification using boundary element methods of elastostatics <i>Zhenhan Yao & Bing Gong</i>	387
Eddy-current imaging: Approaches, formulations and problems <i>R.Zorgati</i>	393
 <i>Mathematical and computational aspects</i>	
Theoretical and practical aspects of inverse problems for nonlinear filtration process <i>Z. Denkowski, S. Migorski, R. Schaefer & H. Telega</i>	403
Novel approaches to the IHCP: Neural networks <i>V. Dumek, M. Raudensky, T.D.Grove & J. Krejsa</i>	411
An approximate approach to data assimilation under uncertainties based on adjoint and filtering techniques <i>S. Hoang, O. Talagrand & P. De Mey</i>	417

A Newton method in inverse obstacle scattering <i>R. Kress</i>	425
Analysis of inverse heat conduction problems with various regularization orders involved <i>K. Kurpisz & A.J. Nowak</i>	433
The progress of engineering in the field of inverse problems: System identification <i>H.G. Natke</i>	439
Radon transform, wavelets and diffraction tomography <i>Li Shi-xiong</i>	445
New filter theory – Boundary element method and its application to inverse problem <i>N. Tosaka & A. Utani</i>	453
A new regularization method for neural-network-based inverse analyses and its application to structural identification <i>S. Yoshimura, A. Matsuda & G. Yagawa</i>	461
Numerical solution of 2-d potential inversion problems <i>Guanquan Zhang & Xueli Dou</i>	467
Author index	473
