Nucleic Acids Research, 2019, Vol. 47, Database issue, Pages D128–D134, <https://doi.org/10.1093/nar/gky960>

On page D131 the sentence: ‘According to the methylation analysis results, only 583 lncRNAs are always hypomethylated in cancers, contrasting to 27 723 lncRNAs that are always hypermethylated’ has been corrected to read ‘According to the methylation analysis results, only 583 lncRNAs are always hypermethylated in cancers, contrasting to 27 723 lncRNAs that are always hypomethylated.’
