## Magma ascent and eruptive processes from textural and compositional features of Monte Nuovo pyroclastic products, Campi Flegrei, Italy

Published online: 3 March 2006  
© Springer-Verlag 2005

10.1007/s00445-005-0410-1

Figure 3 was not printed in Volume 67, Issue 7, 2005, although it is online. It is printed below.

**Fig. 3** Compositional diagrams for Monte Nuovo glass matrix. Whole-rocks compositions from Rosi and Sbrana (1987) are reported for comparison
