PREFACE	iii
FOREWORD	v
1. INTRODUCTION	1
1.1 Purpose and Objectives	1
1.2 Traditional Sea Ice Prediction Services	2
1.21 Ice Outlooks	2
1.22 Thirty-Day Ice Forecasts	3
1.23 Five-Day Ice Forecasts	4
1.24 Forty-Eight-Hour Ice Forecasts	5
1.25 Shipboard Forecasts	6
1.26 Ice Routings	8
1.3 Operational Background Knowledge	9
1.4 Background Knowledge of Sea Ice Distribution	12
1.41 Importance of Aerial Reconnaissance	12
1.42 Special Supplement to H.O. Pub 705	12
1.43 Organization of Aerial Reconnaissance in Support of Short-Term Ice Forecasts	12
1.44 Types of Sea Ice and Definitions	14
1.5 Basic Oceanographic Knowledge	18
1.51 General	18
1.52 Theories of Ice Accretion and Disintegration	19
1.53 Ice Drift Theory	20
1.6 Basic Meteorological Knowledge	21
1.61 Importance and Limitations of Meteorological Data	21
1.62 Prerequisite Knowledge of Extended Weather Forecasting Techniques	22
1.7 Additional Environmental Knowledge	23
2. USE OF LONG-TERM ICE PREDICTIONS IN FORMULATING SHORT-TERM FORECASTS	23
2.1 Use of Long-Range Ice Outlook	23
2.2 Thirty-Day Ice Forecasts	25
