

ERRATUM

Open Access

Erratum: Measuring autistic traits in the general population: a systematic review of the Autism-Spectrum Quotient (AQ) in a nonclinical population sample of 6,900 typical adult males and females

Emily Ruzich^{1,2*}, Carrie Allison², Paula Smith², Peter Watson³, Bonnie Auyeung^{2,4}, Howard Ring^{1,5,6} and Simon Baron-Cohen^{2,5,7}

Erratum

A correction should be made to the confidence intervals stated in the abstract, as they do not reflect those reported in the manuscript body. It was stated that "Mean AQ score for the nonclinical population was 16.94 (95 % CI 11.6, 20.0), while mean AQ score for the clinical population with ASC was found to be 35.19 (95 % CI 27.6, 41.1)." In fact, the first set of confidence intervals should read (95 % CI 16.4, 17.4) for the nonclinical sample, and the second should read (95 % CI 34.5, 35.9) for those with ASC.
