OPEN Author Correction: Micro RNAs upregulated in Vitiligo skin play an important role in its aetiopathogenesis by altering TRP1 expression and keratinocytemelanocytes cross-talk

Utpreksha Vaish, Avinash A. Kumar, Swati Varshney, Shreya Ghosh, Shantanu Sengupta, Chandni Sood, Hemanta K. Kar, Pankaj Sharma, Vivek T. Natarajan, Rajesh S. Gokhale & Rajni Rani

Correction to: Scientific Reports https://doi.org/10.1038/s41598-019-46529-6, published online 12 July 2019

In Figure 4c, the TRP1 blot for Sample 2 was inadvertently duplicated from the TRP1 blot for Sample 1. As a result, Figure 4e is incorrect. The correct Figure 4 appears below as Figure 1.

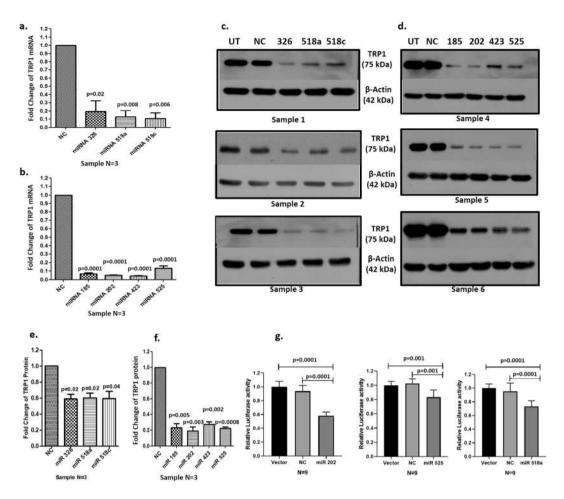

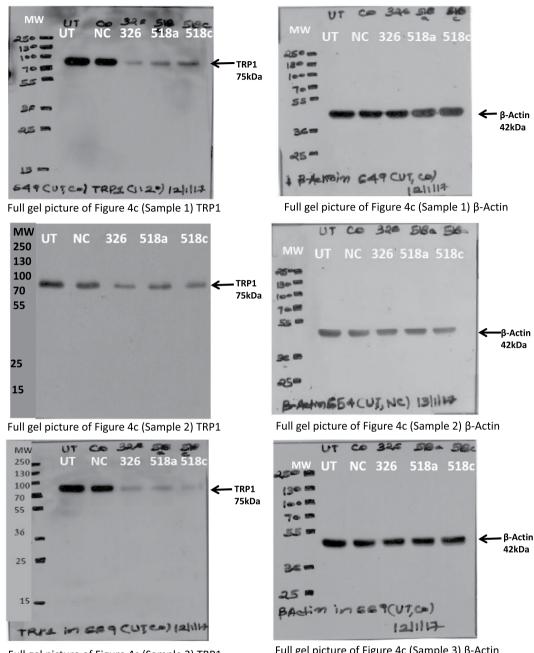

Figure 1.

Additionally, in the Supplementary Information file, in the corresponding full blot image in figure S12 the TRP1 blot for Sample 2 was inadvertently duplicated from the TRP1 blot for Sample 1. The correct supplementary figure appears below as Figure 2.

Full gel picture of Figure 4c (Sample 3) TRP1
