The studies reported in chapters 2 and 4 of the present thesis were performed at the Department of Developmental Psychology, VU University Amsterdam. No financial support was received for these studies. The studies reported in chapters 3 and 5 used data of the RADAR study. RADAR has been financially supported by main grants from the Netherlands Organisation for Scientific Research (GB-MAGW 480-03-005, GBMAGW 480-08-006), and Stichting Achmea Slachtoffer en Samenleving (SASS), and various other grants from the Netherlands Organisation for Scientific Research, the VU University Amsterdam and Utrecht University. The study reported in chapter 6 used data of the Edinburgh Study of Youth Transitions and Crime (ESYTC) and the analyses reported here were conducted in collaboration with Prof. Dr. Barbara Maughan. The ESYTC was funded by the Economic and Social Research Council, the Nuffield Foundation and the Scottish Executive Committee. Dr Maughan is supported by the Medical Research Council, United Kingdom. The analyses described in chapter 6 were supported by a grant from the Medical Research Council (MRC G0500953).
