**Erratum to: Arch Gynecol Obstet (2015)  
292:1163–1171  
DOI 10.1007/s00404-015-3747-5**

We regret a typo error in the official publication of “Materials and methods”, animals section’s last paragraph. In this section, the eighth line amount of 5 mM

Evans Blue dye introduced through the jugular vein should be 0.2 ml instead of 2 ml. The correct sentence is given below.

The neck was dissected and the jugular vein was injected with 0.2 ml of 5 mM Evans Blue (Sigma-Aldrich, USA) to evaluate vascular permeability.
