# Contents

|                               |     |
|-------------------------------|-----|
| Preface                       | vii |
| Introduction                  | 3   |
| <b>Part I • Analysis</b>      |     |
| 1 Computation                 | 27  |
| 2 Irreduction                 | 77  |
| 3 Realism                     | 85  |
| 4 Particularity               | 117 |
| 5 physics                     | 137 |
| <b>Part II • Construction</b> |     |
| 6 Flex & slop                 | 191 |
| 7 Registration – I            | 213 |
| 8 Registration – II           | 243 |
| 9 Middle distance             | 277 |
| 10 Transition                 | 315 |
| 11 Metaphysics                | 317 |
| 12 Conclusion                 | 345 |
| <b>Indexes</b>                |     |
| Sections                      | 379 |
| Figures                       | 383 |
| Sidebars                      | 385 |
| Topics                        | 387 |
| Names                         | 407 |
| References                    | 411 |
