Contents

I. Introduction to the Topic of Patient Compliance

1. Overview of Methods to Measure and Enhance Patient Compliance 3
Joyce A. Cramer
2. Failure to Refill Prescriptions: Incidence, Reasons, and Remedies 11
Richard A. Levy
3. Interaction of Compliance and Patient Safety 19
Ronald L. Krall
4. Partial Compliance as a Source of Variance in Pharmacokinetics and Therapeutic Drug Monitoring 27
Julie M. Backes and Jerome J. Schentag
5. Methods of Assessing and Improving Patient Compliance in Clinical Trials 37
Bert Spilker
6. Impact of Risk Communication on Accrual, Regimen, and Follow-up Compliance 57
Louis A. Morris and Ivan Barofsky

II. Special Patient Populations

7. Compliance with Pediatric Medical Regimens 73
Michael A. Rapoff and Martha U. Barnard
8. Behavioral Strategies to Increase Compliance in Adolescents .. 99
Barbara A. Cromer
9. Improving Compliance in the Older Patient: The Role of Comprehensive Functional Assessment..... 107
Norma J. Owens, E. Paul Larrat, and Marsha D. Fretwell

III. Monitoring Techniques for Specific Therapies

10. Monitoring Compliance with Antiepileptic Drug Therapy 123
Joyce A. Cramer and Richard H. Mattson
