Kiyooki Aikawa received the B.S., M.S., and D. Eng. degrees from Dept. Elec. Eng., Univ. of Tokyo in 1975, 1977, and 1980, respectively. From 1980 through 1991 he was with NTT Electrical Communications Laboratories. Since 1992 he has been a member of ATR Auditory and Visual Perception Research Laboratories. His current research interests include auditory system modeling and speech recognition.
