3.2 The Traditional Partisan Model	46
3.3 The Rational Partisan Model	51
3.4 Welfare Properties of Partisan Cycles	57
3.5 A Rational Partisan Model with Retrospective Voting	59
3.6 Discussion and Conclusions	61
Appendix	64

4	Political Cycles in the United States	67
4.1	Introduction	67
4.2	Previous Empirical Results	70
4.3	Data and Basic Statistics	73
4.4	Specification of the Empirical Tests	82
4.5	Evidence on the Partisan Theories	83
4.6	Evidence on Political Business Cycles	93
4.7	Political Cycles in Monetary Policy	95
4.8	Political Cycles in Fiscal Policy	102
4.9	Discussion: Alternative Hypotheses	107
4.10	Conclusions	108
	Appendix	109
5	Polls, Electoral Uncertainty, and the Economy	111
5.1	Introduction	111
5.2	The Electoral Option and Its Application to Models of Partisan Politics	112
5.3	Political Information and Financial Markets: An Overview	124
5.4	Conclusion	134
	Appendix A	135
	Appendix B	137
	Appendix C	139
6	Political Cycles in Industrial Economies	141
6.1	Introduction	141
6.2	Previous Empirical Results	143
6.3	Data and Specification of Empirical Tests	145
6.4	Evidence on the Rational Partisan Theory	148
6.5	Traditional Partisan Theory	163
6.6	Level versus Growth Effects	166
6.7	Evidence on Political Business Cycles	167
6.8	Endogenous Elections and Opportunistic Policy-makers	170
6.9	Conclusions	173
	Appendix	174

7	Political Cycles and Macroeconomic Policies: Evidence from Industrial Democracies	185
7.1	Introduction	185
7.2	Data and Specification of Empirical Tests for Monetary Policy	186
7.3	Evidence on Partisan Effects in Monetary Policy	188
7.4	Evidence on Political Business Cycle Effects in Monetary Policy	196
7.5	Electoral and Partisan Determinants of Fiscal Policy and Budget Deficits	201
7.6	Conclusions	207
	Appendix	208
8	Political Cycles and Central Bank Independence	211
8.1	Introduction	211
8.2	Independent Central Banks	213
8.3	Political Cycles and Central Bank Independence	218
8.4	A Note on the "Contracting" Approach	223
8.5	Conclusions	224
	Appendix	225
9	Political Parties, Institutions, and Budget Deficits	227
9.1	Introduction	230
9.2	Political Models of Budget Deficits	240
9.3	Opportunistic and Partisan Effects on Fiscal Policy Revisited	245
9.4	Normative Implications	247
9.5	Conclusions	248
	Appendix	250
10	Conclusions	253
10.1	Summary of Results	253
10.2	Are Political Cycles Going to Disappear?	259
	Notes	265
	References	285
	Index	297
