[Instructions for use](#)

**Table S. 1.** Localities and accession number of DNA database of the *Suncus murinus*-*S. montanus* species complex and outgroup. Location numbers correspond with those in Fig. 1. Back-ground colors of OTU code are similar to those in Figs. S. 1 and 2. OTU = operational taxonomic unit.

| Loc # | OTU code | accession # | Source | Locality  | note              |
