Received: 6 October 2007 / Published: 16 October 2007

After a three year interruption, we have decided to resume publication of the MDPI journal *Pharmaceuticals* (ISSN 1424-8247). This journal will henceforth publish papers on typical molecular medicines. In order to provide publishing services for those papers about topics which can be categorized as nutraceuticals or chemopreventives, we have set up a section in *International Journal of Molecular Sciences* (ISSN 1422-0067, IJMS) at <http://www.mdpi.org/ijms/sections/nc.htm>. Under this model we consider that the first paper [1] published in *Pharmaceuticals* (ISSN 1424-8247) should rightly have been treated as a paper for the nutraceuticals or chemopreventives section of *IJMS*.
