The Editor-in-Chief has retracted this article [1] on account of errors found in the manuscript.

It was found that numerical simulations have been performed using the propeller configuration that is adopted for open water test however with the velocity coming from the opposite direction. Hence all findings are inaccurate.

Pritam Majumder and Subhendu Maity disagree with this retraction. Dileep Kumar Avanapu did not respond to correspondence about this retraction.

The online version of this article contains the full text of the retracted article as Supplementary Information.

Supplementary Information The online version of this article <https://doi.org/10.1007/s00773-020-00775-w> contains supplementary material, which is available to authorized users.
