RETRACTED ARTICLE: Optimal Hop Selection Based Novel Trust Based DDoS Attack Removal Framework for Reliable and Secured Transmission of Data in VANETs

Prabakeran Saravanan[1] · T. Sethukarasi[2]

The Editor-in-Chief has retracted this article [1] because it shows significant overlap with a previously published article without proper acknowledgement [2]. This article is therefore redundant. Prabakeran Saravanan does not agree to this retraction. T. Sethukarasi has not responded to any correspondence from the editor/publisher about this retraction.

The online version of this article contains the full text of the retracted article as electronic supplementary material.
